

What is CFCC?

The California Financing Coordinating Committee (CFCC) was formed in 1998 and is made up of seven funding agencies: five state and two federal. CFCC members facilitate and expedite the completion of various types of infrastructure projects by helping customers combine the resources of several agencies. Project information is shared between members so additional resources can be identified. CFCC members conduct free Funding Fairs statewide each year to educate the public and potential customers about the different member agencies and the financial and technical resources available. For general CFCC inquiries please e-mail ibank@ibank.ca.gov.

Please log on to the CFCC website at www.cfcc.ca.gov for the 2018 funding Fair Schedule, CFCC Member Directory and general information.

CFCC Members Agencies

Bureau of Reclamation

California Department of Housing and Community Development

California Department of Resources and Recycling Recover (CalRecycle)

California Department of Water Resources

California Infrastructure and Economic Development Bank (IBank)

State Water Resources Control Board

United States Department of Agriculture

California Financing Coordinating Committee

CFCC²⁰¹⁸ FUNDING FAIRS

Seeking Funding for Your Infrastructure Project?

California Financing Coordinating Committee (CFCC) combines the resources of State and Federal agencies to provide one-stop financing for infrastructure projects.

Purpose of the Funding Fairs

The California Financing Coordinating Committee (CFCC) funding fairs are free and provide members of the public and infrastructure development professionals with up-to-date information on current funding for different types of projects. Project funding from CFCC agencies can be in the form of grants or loans depending on the program. Interested parties attending a funding fair are provided with a CFCC handbook and informational handouts describing financial and technical assistance resources currently available. The handbook provides staff contact information, a project matrix that shows funding sources by project type and copies of all the PowerPoint presentations given by members. Attendees of the funding fair will be able to “network” with project development as well as CFCC professional staff.

2018 Schedule
