

California Financing Coordinating Committee

CFCC 2019 FUNDING FAIRS

California Financing Coordinating Committee

Infrastructure Financing for the 21st Century

August 2019

What is CFCC?

Formed in 1998, CFCC comprises six funding members: four state and two federal agencies. CFCC members facilitate and expedite the completion of various types of infrastructure projects helping customers combine the resources of different agencies. Project information is shared between members in support of identifying additional resources. Each year, CFCC members conduct free funding fairs statewide to educate the public and potential customers about the different member agencies and the financial and technical resources available.

Who Should Attend

Representatives from public works, local governments, California Native American Tribes, city managers and planners, economic development and engineering professionals, officials from privately owned facilities, water and irrigation district managers, financial advisors, and project consultants.

CFCC Mission Statement

The purpose of CFCC is to foster cooperation among the six funding agencies that administer water, wastewater, and other public infrastructure needs. The CFCC encourages the efficient use of funds by reducing administrative costs for recipients and funding agencies and evaluating methods for improved performance. CFCC members provide a forum to resolve state and federal program requirement conflicts that may make multiple-funded project difficult to administer. Additionally, funding fairs provide the CFCC with an opportunity to present current program information to the public. Attendees will also have the opportunity to speak with program staff directly.

Eligible Project Types

CFCC agencies fund the following types of eligible infrastructure projects: drinking water, wastewater, water quality, water supply, water conservation, water use efficiency, energy efficiency, flood management, solid waste, and compost. Some of the participating agencies also fund other types of infrastructure projects including streets and highways, emergency response vehicles, and community facilities.

CFCC Information

CFCC has conducted free funding fairs statewide each year to educate the public and offer potential customers the opportunity to meet with financial representatives from each agency and learn more about available funding.

Please visit the CFCC website at www.cfcc.ca.gov for the 2019 funding fair schedule, the CFCC member directory, and general information.

ABOUT CFCC

California Financing Coordinating Committee (CFCC) agencies fund primarily the following types of infrastructure projects: drinking water, wastewater, water quality, water supply, water conservation, water use efficiency, energy efficiency, and flood management. Some of the participating agencies also fund other types of infrastructure projects including streets and highways, emergency response vehicles, and community facilities.

U.S. Department of Agriculture (USDA) Rural Development

USDA Rural Development has more than 40 programs to support investments in infrastructure, housing, and economic and community development projects throughout rural California. USDA's loan, grant and loan guarantee programs work in partnership with state and local sources to help build stronger rural communities.

California Infrastructure and Economic Bank (IBank)

IBank, the State of California's only general-purpose financing authority, has broad statutory powers to issue tax-exempt and taxable bonds, provide loans to state and local governments for a variety of public infrastructure projects and loan guarantees to lenders for small businesses. IBank's mission is to finance public infrastructure and private development that create good jobs, a strong economy and a clean environment to improve the quality of life for California communities.

California Department of Housing and Community Development (HCD)

HCD is the State of California's principal housing and community development organization. HCD administers a variety of State and federal housing, community and economic development finance programs. Loans and grants to local governments, private non-profit and for-profit businesses to leverage additional local public and private resources to increase California's housing supply and develop viable communities through the expansion of economic development opportunities.

State Water Resources Control Board (SWRCB)

The SWRCB's Division of Financial Assistance provides funding for projects that preserve, enhance, and restore California's water resources. Financial assistance programs include loan and grant funding for planning, design, and construction of the following general project types: municipal sewage and water recycling facilities, drinking water infrastructure for public water systems, groundwater clean-up, storm water management, nonpoint source pollution control, and watershed protection.

US Bureau of Reclamation (USBR or Reclamation)

Through the WaterSMART and Bay Delta Grant programs, Reclamation provides up to 50% cost-share funding to irrigation and water districts, tribes, states and other entities with water or power delivery authority. Funding Opportunity Announcements (FOAs) are posted to www.grants.gov; projects are selected based upon the criteria in each FOA. Competitive projects conserve and use water more efficiently, increase the use of renewable energy, protect endangered species, or facilitate water markets.

California Department of Water Resources (DWR)

DWR financial assistance programs support integrated water management activities that address public safety, environmental stewardship, and economic stability. Public agencies and other eligible organizations can apply for funding. The kinds of projects funded include environmental restoration, flood related, Integrated Regional Water Management, water quality, drinking water, water supply, water management, and water use efficiency.

California Strategic Growth Council (SGC)

The California Strategic Growth Council is committed to healthy, thriving, and resilient communities for all. The mission of the Council is to coordinate and work collaboratively with public agencies, communities, and stakeholders to achieve sustainability, equity, economic prosperity, and quality of life for all Californians. The Affordable Housing & Sustainable Communities Program seeks to reduce greenhouse gas while increasing accessibility of housing, employment, and key destinations through walking, biking, and transit.

California Rural Water Association (CRWA)

CRWA provides on-site technical assistance and specialized training for rural water and wastewater systems.

Rural Community Assistance Corporation (RCAC)

RCAC is a 501(c)(3) nonprofit organization that provides training, technical and financial resources and advocacy so rural communities can achieve their goals.

USDA Rural Development

Water and Environmental Programs

Water & Waste Con't – Rates & Terms

- Interest Rates: Established quarterly
 - Based on nonmetropolitan median household income
 - Poverty Rate: Below \$53,307 and the project corrects health or sanitary violations for water programs
 - Intermediate Rate: \$50,308 - \$62,883
 - Market Rate: Above \$62,883
- Terms: 40 years

Water and Environmental Programs

Funding Opportunities: Emergency Community Water Assistance Grant (ECWAG)

- Assists rural communities that have experienced a significant decline in the quantity or quality of **water** directly caused by an emergency incident
- "Emergency" = drought, earthquake, flood, landslide, etc.
- Grants may cover 100% of project costs up to \$1 million
- Develop new sources and for treatment

Water and Environmental Programs

Funding Opportunities: 306C Colonia Grants

- Must be located in Imperial, San Diego, or southern Riverside Counties
- \$3 million is available for California

Water and Environmental Programs

Funding Opportunities: Native American 306C Grant

- Per capita income must be \leq \$18,590 with unemployment rate over 5.125%
- Unemployment rate must be no less than 6.25%
- \$2 million maximum per project in FY18
- Approx. \$20 million nationally available FY18

Water and Environmental Programs

Funding Opportunities: SEARCH Grants

- Eligible Areas - Rural areas with a population of 2,500 or less
- Have a median household income below \$50,306
- \$30,000 max grant to pay for predevelopment planning costs to support applications for WEP funding

Water and Environmental Programs

Application Process

- Build community support
- Initial Meeting with USDA
- PER/Environmental
- Complete Application
- Letter of Conditions
- Obligate Funding
- Disbursement after loan/grant closing or start of construction

USDA Rural Development

RD Apply

Online Application Intake System for WEP
<https://rdapply.usda.gov>

- Convenience
- Identity Security – all users obtain e-authentication
- Faster Application Process – other persons authorized
- Reduced Paper Consumption
- Applicant's official with signature authority

Community Facilities Program

Program Overview

- Eligible applicants: public bodies/special districts, nonprofit corporations and federally-recognized tribes.
- Low rates, up to 40-year terms
- Population 20,000 or less
- Applications accepted all year
- Grants avg \$40,000 to qualified applicants

Ex: Healthcare, Police/Fire, Public Bldgs, Transportation/Infrastructure

CF Example: Arroyo Grande, City Hall

Total Project = \$2.45 MM

USDA CF Loan = \$1.2 MM

WEP Example: San Simeon CSD, RO membrane filtration

Total Project = \$989,600

USDA ECWAG = \$500,000

Example: Rio Alto, WWTP & Constructed Wetlands

Total Project Costs = \$7,329,329

USDA WEP Loan/Grant = \$5,441,000

Partners: CWSRF, NSVIRMP

CF & WEP Example: City of Woodlake

Combined USDA Investments of Nearly \$30 million!

- CF Loans = \$6,177,100
- CF Grants = \$154,100
- WEP Loans = \$17,479,000
- WEP Grants = \$5,821,000

USDA Rural Development

USDA Staff Available to Help

USDA is an equal opportunity provider, employer and lender.

The image shows a rural landscape with a water tower, barns, and a field of yellow flowers. The text is overlaid on a dark green background that curves across the bottom of the image.

US Department of Agriculture and Rural Development (USDA)

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Water and Waste Disposal program	Loan/Grant	Provide loans and grants to develop and rehabilitate community water systems	Public bodies, Tribes, Nonprofits, Cities, Towns and census designated places with populations less than 10,000	CEQA / NEPA	Funds may be used for costs associated with planning, design and construction of new or existing systems Eligible projects include storage, distribution, source development	Facilities not modest in size, design and cost For profit systems	None, but average project size is \$3-5 million	Loans: 2.500 - 4.250% fixed, 40 years. Grant funding available to reduce user costs Continuous filing	Pete Yribarren (805) 260-0828
Water and Waste Disposal Colonias Grant	Grant	Help especially needy communities within 150 miles of the Mexico Border. Pay for all or part of the costs to provide safe drinking water facilities for the residents	Designated "Colonias" within 150 miles of US-Mexico Border	CEQA / NEPA	Residents to be served must face significant health risks due to the fact that a significant proportion of the community's residents do not have access to, or are not served by, adequate, affordable, water disposal systems	Facilities not modest in size, design and cost For profit systems	\$2,000,000 per project.	100% grant, subject to availability Continuous filing	Pete Yribarren (805) 260-0828
Water and Waste Disposal	USDA guarantees loans made by banks	Provide additional security for commercial lenders that finance community water systems	Banks and other commercial lenders are eligible applicants Cities, Towns, Public bodies, census designated place, with populations less than 10,000	CEQA / NEPA	Funds may be for costs associated with Planning, design and construction of new or existing systems Eligible projects include water, storage, distribution and source development	Facilities not modest in size, design and cost Privately owned infrastructure	None	Negotiated between applicant and lender Fixed and variable rates allowed Continuous filing	Pete Yribarren (805) 260-0828
Emergency Community Water Assistance Grant	Grant	Help eligible rural communities recover from an emergency that result in a decline in capacity to provide safe, reliable drinking water for households and businesses.	Rural areas with populations less than 10,000 population.	NEPA	Construction of new water source, intake, treatment facility, waterline extensions.	Repairs to infrastructure that was not damaged by an emergency.	\$1,000,000	100% grant, subject to availability Continuous filing	Pete Yribarren (805) 260-0828
Native Americans Community Water / Wastewater Grant	Grant	To correct health or sanitary violations. Access to safe reliable drinking water and waste disposal facilities.	Federally Recognized Native American Tribes	NEPA	Construction of new or rehabilitation of existing water source, treatment facility, waterline extensions and storage tanks.	Facilities not modest in size, design, and cost	\$2,000,000 per project.	100% grant, subject to availability Continuous filing	Pete Yribarren (805) 260-0828

US Bureau of Reclamation (USBR)

RECLAMATION
Managing Water in the West

Water Conservation: Financial Assistance Opportunities

U.S. Department of the Interior
Bureau of Reclamation 2019

Bureau of Reclamation – Five Regions

RECLAMATION

Reclamation Financial Assistance
Grant Programs

- MP Region**
 - Bay-Delta CALFED Water Use Efficiency
 - Agricultural Water Use Efficiency
- LC Region**
 - Water Conservation Field Service Program
- Reclamation-Wide**
 - WaterSMART Grants**
 - WEEG – Water Energy Efficiency Grant
 - SWEP – Small-scale Water Efficiency Project
 - OWMP – Cooperative Watershed Management Prog.
 - Drought
 - Strategic Water Marketing

RECLAMATION

Reclamation Financial Assistance
General Grant Information

- 50% project's cost and no more than \$5 million
- States, tribes, irrigation and water districts, and other entities with water or power delivery authority
- Awards made through a competitive process
- Grant programs are posted on www.grants.gov

RECLAMATION

Bay-Delta CALFED Water Use Efficiency Grants

Eligible applicants must be located within the CALFED Solution Area

RECLAMATION

Bay-Delta CALFED Water Use Efficiency Grants

- Accelerate the implementation of cost-effective actions through water conservation
- Significant benefits to the Bay-Delta through water quality, water supply reliability, and instream flows
- From 2010 - 2016, Reclamation awarded 60 grants; 302,492 AF of water conserved or better managed

EBMUD Leak Detection

RECLAMATION

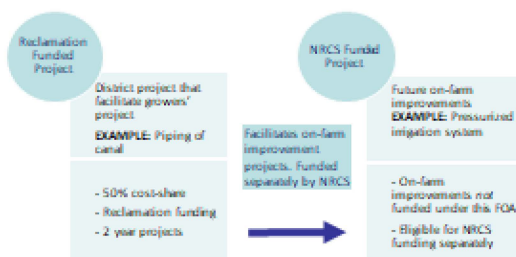

Agricultural Water Use Efficiency Grants

- Partnership with Natural Resource Conservation Service (NRCS) - Fostering District/Farmer Partnerships
- Focus on projects that increase the capability of on-farm water conservation projects
- Encourage supplier/grower partnerships to identify district/regional needs and opportunities

RECLAMATION

Agricultural Water Use Efficiency Grants

RECLAMATION

Agricultural Water Use Efficiency Grants

Examples of NRCS funded On-Farm Efficiency Projects:

- Conversion to more efficient irrigation systems
- Irrigation tail water collection and reuse
- Retrofit to facilitate recycled water use where allowed by water quality and food safety regulations
- On-farm irrigation system/management evaluations
- Irrigation scheduling services, software, and equipment

RECLAMATION

WaterSMART Funding Opportunities

Competed Reclamation-wide (amount dependent on budget)

www.usbr.gov/watersmart

RECLAMATION

WaterSMART – WEEG

Eligible projects fall into one or more "Tasks"

Task A – Water Conservation Projects

Projects that result in quantifiable and sustained water savings or improved water management

Task B – Hydropower Projects

Projects that increase the use of hydropower in managing and delivering water. Hydropower projects related to water management and delivery include, but are not limited to installing a small-scale hydroelectric facility that enables use of renewable energy sources (e.g., installing low-head hydrokinetic power generation units in a water system)

RECLAMATION

WaterSMART – WEEG

- Funding Group 1**
 - < or = \$300,000 available per project
 - < 2 years to complete
- Funding Group 2**
 - \$300,000.01 to \$1,500,000 per project
 - Funding is provided in phases as sufficient progress is shown each year
 - < 3 years to complete

FOA for FY 2020 will be posted on www.grants.gov sometime in July 2019 and close around October-November 2019.

RECLAMATION

US Bureau of Reclamation (USBR)

WaterSMART – Small-Scale Water Efficiency Projects

For projects with total cost of up to \$200,000 or less

- Eligible projects (similar to WEEG)
 - Receive up to \$75,000 in Federal funding
 - Generally, projects should be complete in two years
- Streamlined Application Process
 - Rolling Application Submission
 - Simplified Evaluation Criteria
 - Clarified necessary budget documentation

RECLAMATION

WaterSMART – CWMP

- Provides funds to develop local solutions to water management needs
 - Phase 1 - Planning
 - Phase 2 - Implementation
- Purpose:
 - Improve water quality and ecological resilience
 - Conserve water
 - Reduce conflicts

RECLAMATION

WaterSMART – CWMP Phase 1

- Up to \$100,000 in Federal funds with \$50,000 provided each year for up to two years for 100% of costs (non-Federal match is not required)
- Two Phase 1 "Task" types:
 - A – Establishment of Watershed Group
 - B – Further Development of Existing Watershed Group
- Eligible applicants include:
 - Same as above plus local governments and interstate and non-profit entities
 - Affected by water quality and quantity in a watershed
 - Capable of promoting sustainable use of water
 - Task B applicants additionally must be:
 - An existing watershed group or
 - A participant in an existing watershed group

RECLAMATION

WaterSMART – CWMP Phase 2

- Up to \$300,000 in Federal funds
- Required 50% cost share
- Limited to established watershed groups

Eligible projects:

- Improving stream structure/complexity
- Restoring/enhancing vegetation and floodplains
- Controlling invasive species
- Other projects that improve ecological resilience and increase water supplies for users in the watershed

RECLAMATION

WaterSMART – Drought Grants

- Contingency Planning – up to \$200,000
- Resiliency Projects – up to \$750,000

A sign on a farm trailer reading "Food grows where water flows," hangs over dry, cracked mud at the edge of a farm near Buttonwillow, California, April 16, 2009. David McNew/Getty Images

RECLAMATION

WaterSMART – Drought Contingency Planning Grants

Drought Contingency Planning

- Develop a new drought plan or
- Update an existing drought plan

May request technical assistance from Reclamation

Required elements of drought plan (i.e., the plan will):

- Drought monitoring
- Vulnerability assessment
- Mitigation actions
- Response actions
- Operational and administrative framework
- Plan update process

RECLAMATION

US Bureau of Reclamation (USBR)

WaterSMART – Drought Resiliency Project Grants

Resiliency Implementation projects that help prepare for and respond to drought

- **Funding Group 1**
 - < or = \$300,000 available per project
 - < 2 years to complete
- **Funding Group 2**
 - \$300,000.01 to \$750,000 available per project
 - Funded on an annual basis
 - < 3 years to complete

FOA for FY 2020 will be posted on www.grants.gov in July 2019 closing October-November 2019

RECLAMATION

WaterSMART – Water Marketing Strategy Grants

Funding Group I: Up to \$200,000 - completed within 2 years
Funding Group II: Up to \$400,000 - completed within 3 years

A “water marketing strategy” is a framework for implementation of water marketing activities. Development of a water marketing strategy may include:

- (1) Outreach and partnership building;
- (2) Planning activities (e.g., hydrologic, economic, legal and other types of analysis);
- (3) Associated pilot activities integral to the development of a strategy -e.g., the movement of water on a pilot basis in compliance with applicable laws; and
- (4) The development of a water marketing strategy document, describing how the water marketing activities will be implemented.

Title XVI Program

Title XVI of P.L. 102-575, as amended, provides authority for Reclamation’s water recycling and reuse program

- **Authorized Projects:** Congressionally authorized Title XVI Water Reclamation and Reuse projects
- **WIIN Projects:** Water Reclamation and Reuse projects with a feasibility study approved in accordance with Reclamation Directives and Standards WTR 11-01
- **Feasibility Studies:** Studies to assist communities to determine whether water recycling and reuse projects are viable
- **Research Studies:** Funding opportunity to conduct water reclamation research under the Title XVI program

For more information, please contact

LC – Meghan Thiemann at mthiemann@usbr.gov or 702-293-8438

MP – Ankur Bhattasoharya at ankurbhattasoharya@usbr.gov or 818-978-5348

RECLAMATION

Water Conservation Field Services Program

- Demonstration Projects
- Water Project Designs
- System Optimization Reviews
- Water Conservation Planning

RECLAMATION

How do I get a grant?

Checkout: www.grants.gov

Give yourself time to write the proposal!

Checkout Successful Applications:
<https://www.usbr.gov/watersmart/applications/>

RECLAMATION

**How do I get a grant?
-Tips**

- Apply for as many grants as you feel your agency qualifies for
- If it is a large project, consider breaking it into phases
- Don't assume that the Grantor knows you
- Focus on the Grant Evaluation Criteria. Copy them into your proposal and address each one in one section of your proposal.
- Understand the 60% non-federal funding cost-share requirement—state funding may help with this
- If your grant application does not get awarded, ask for a de-brief to help you prepare a better proposal the next year.

Most importantly, Ask for help!

STATE WATER RESOURCES CONTROL BOARD: DIVISION OF FINANCIAL ASSISTANCE

Providing Financial Assistance for Projects that
Serve the Water Boards' Mission to
"Preserve, Enhance, and Restore California's
Water Resources"

<http://www.waterboards.ca.gov>

Part 1 of 2

Slide No. 1

PRESENTATION TOPICS

- Wastewater
 - Clean Water State Revolving Fund
 - Small Community Wastewater
 - Water Recycling Funding Program
- Groundwater Quality Funding
 - Senate Bill 445 Site Cleanup Subaccount Program
- Stormwater Grant Program
- Drinking Water
 - Drinking Water State Revolving Fund
 - Drinking Water for Public Schools Grant Program
 - Cleanup and Abatement Interim Emergency Drinking Water
- Orphan Site Cleanup Fund
- Nonpoint Source (NPS) Control Program Grants & Funding

Slide No. 2

CLEAN WATER STATE REVOLVING FUND (CWSRF) PROGRAM

- Fund an average of \$625 million/year
- Applications accepted on a continuous basis
 - Fundable projects must be listed on Intended Use Plan Fundable List
- Interest Rate: $\frac{1}{8}$ most recent General Obligation Bond Sale at time of funding commitment
- Financing Term: Up to 30 years or the useful life of the project
- Repayment: Annual payments begin 1 year after completion of construction
- Principal Forgiveness (PF) available to municipalities:
 - Water/energy audits: 100% up to \$35,000

Slide No. 3

CWSRF PROGRAM: FINANCING TERMS

- Funding for:
 - Wastewater and Water Recycling Projects
 - Wastewater treatment
 - Local sewers
 - Sewer interceptors
 - Water reclamation facilities
 - Expanded Use Projects
 - Nonpoint source (NPS) projects identified in CA's NPS Plan
 - Estuary projects
 - Stormwater reduction and treatment facilities, etc

Slide No. 4

CWSRF Project Example

- Running Springs Water District
 - Automatic Meter Reading (AMR) Technology Upgrade - Total Cost: \$800,000
 - \$400,000 at 1.8% interest financing at a 20 year term in CWSRF Loan
 - \$400,000 in Principal Forgiveness

Slide No. 5

CWSRF Project Example

- City of Vista
 - Vista/Carlsbad Interceptor & Agua Hedionda Pump Station Replacement Project - Total Cost: \$21,991,869
 - \$21,991,869 at 1.9% interest financing at a 20 year term in CWSRF Loan

Slide No. 6

California State Water Resources Control Board (SWRCB)

CWSRF Project Example

- Delta Diablo
 - Wastewater Infrastructure Repair and Rehabilitation Project - Segment 3 - Total Cost: \$2,054,000
 - \$2,054,000 at 1.9% interest financing at a 30 year term in CWSRF Loan

Slide No. 7

CWSRF PROGRAM: CONTACT

Mr. Robert Pontureri, Senior Engineer
 Email: robert.pontureri@waterboards.ca.gov
 Phone: (916) 341-5828

http://www.waterboards.ca.gov/water_issues/programs/grants_loans/srf/index.shtml

Slide No. 8

SMALL COMMUNITY WASTEWATER: SCG Fund

- Wastewater Grant Funds Available:
 - Annual SCG Appropriation: \$8 million
 - \$70 million in Principal Forgiveness
- Eligible Applicants:
 - Public Agencies, 501(c)(3) non profit organizations, federally recognized tribes and state tribes
 - Grants for small disadvantaged communities
 - Population less than 20,000
 - Median Household Income (MHI) less than 80% (<\$53,735)
 - Statewide MHI (\$67,169)

Slide No. 9

SMALL COMMUNITY WASTEWATER: SCG Fund

- Planning Grant Amounts:
 - 100% grant not to exceed \$500,000
 - Principal Forgiveness
 - Examples of eligible costs under planning are
 - Engineering Reports/Feasibility Studies
 - Public Outreach
 - Environmental Documents
 - Design
 - Rate Studies/Prop 218 Notice
 - Legal Costs
 - Income Surveys
 - Sewer System Evaluations
 - Assessments

Slide No. 10

SMALL COMMUNITY WASTEWATER: SCG Fund

- Construction Grant Amounts:
 - Per SFY 2019/20 CWSRF Intended Use Plan (may be updated upon adoption of SFY 2020/21 CWSRF IUP, anticipated Summer 2020)

Construction Grant Eligibility Criteria

Eligible Applicant:	Public agencies, 501 (c)(3) non-profit organizations, federally recognized tribes and state tribes or Native American Heritage Commission consult list.				
Eligible Project Type:	CWSRF-eligible wastewater projects.				
Affordability Criteria			Grant Amount		
Population	Community MHI	Wastewater Rate as a Percentage of MHI	Percentage of Total Eligible Project Cost	Maximum Grant Amount Per Project	Maximum Cost per Household/Project
<20,000	MHI ≤ 100% Statewide MHI	≥4%	50%	\$6 Million	\$70,000
	DIAC <80% of Statewide MHI	≥1.5%	75%		
	SDAC <60% of Statewide MHI	NA	100%		

SMALL COMMUNITY WASTEWATER: SCG Fund

- Construction Grant Amounts (cont.):
 Eligibility Criteria for Septic to Sewer and Regional Projects

Eligible Applicant:	Public agencies, 501 (c)(3) non-profit organizations, federally recognized tribes and state tribes or Native American Heritage Commission consult list.				
Eligible Project Type:	CWSRF-eligible wastewater projects.				
Affordability Criteria			Grant Amount		
Population	Community MHI	Wastewater Rate as a Percentage of MHI	Percentage of Total Eligible Project Cost	Maximum Grant Amount Per Project	Maximum Cost per Household/Project
<20,000	MHI ≤ 100% Statewide MHI	≥4%	50%	\$8 Million	\$75,000
	DIAC <80% of Statewide MHI	≥1.5%	75%		
	SDAC <60% of Statewide MHI	NA	100%		

Slide No. 12

SMALL COMMUNITY WASTEWATER: SCG Fund

- How to apply
 - Follow the CWSRF application process
 - Applications accepted continuously
 - Funds committed to projects as applications are completed
 - Grants can be combined with CWSRF financing
 - Typical term is 30 years
 - Standard interest rate is ½ most recent General Obligation Bond Sale
 - Some projects may be eligible for reduced interest rates

Slide No. 13

SCG Project Example

- City of Plymouth
 - Plymouth Wastewater Improvement Project – Total Cost: \$6,757,873
 - \$402,903 in Small Community Grant
 - \$3,154,970 in Principal Forgiveness
 - \$1,200,000 in other funding

Slide No. 14

SCG Project Example

- Nevada County Sanitation District
 - Penn Valley WWTP Extension Project – Total Cost: \$8,308,366
 - \$2,310,666 in Small Community Grant
 - \$3,997,700 in other funding

Slide No. 15

SMALL COMMUNITY WASTEWATER: PROGRAM CONTACT

 Phone: (916) 319-8246

Website: http://www.waterboards.ca.gov/water_issues/programs/grants_loans/small_community_wastewater_grant/projects.shtml

Slide No. 16

WATER RECYCLING FUNDING PROGRAM (WRFP)

- To promote use of treated municipal wastewater to augment or offset state/local fresh water supplies:
 - Recycled water treatment
 - Recycled water storage, distribution, and pumping
 - Groundwater recharge
 - Indirect Potable Reuse
 - Surface Water Augmentation
- Eligible applicants include publicly-owned facilities, and privately-owned water utilities regulated by the Public Utilities Commission

Slide No. 17

WATER RECYCLING FUNDING PROGRAM (WRFP)

- Low interest loans
 - Term of up to 30 years
 - Interest rate is ½ the most recent General Obligation Bond Sale
- Grants
 - Planning Grants for 50% of eligible costs up to a maximum of \$150,000
 - Construction Grants for 35% of Construction costs up to a maximum of \$5,000,000
 - Proposition 68 Grants/Loans pending appropriation by SFY 2019-20 budget: \$2 Million (Planning Grant); \$40 Million (Construction Grant); and \$32 Million (Construction Loan)
 - 20% allocated for severely Disadvantaged Communities
 - Possibility for other Proposition Funds as they become available

Slide No. 18

WRFP Project Example

- El Toro Water District
 - Regional Recycled Water Treatment & Distribution – Total Cost: \$26,737,577
 - \$26,737,577 at 1.7% interest financing at a 20 year term

Slide No. 19

WRFP Project Example

- City of Woodland
 - City of Woodland Industrial Park Recycled Water Project – Total Cost: \$3,382,065
 - \$1,791,607 at 1.0% special interest financing at a 30 year term in CWSRF Loan
 - \$1,590,458 in Prop 1 Grant

Slide No. 20

WRFP Project Example

- City of Modesto
 - North Valley Regional Recycled Water Program – Total Cost: \$56,862,028
 - \$41,862,028 at 1.0% special interest financing at a 30 year term in CWSRF Loan
 - \$15,000,000 in Prop 1 Grant

Slide No. 21

WRFP CONTACT

Mr. Michael Downey, Senior Engineer

Slide No. 22

SEAWATER INTRUSION CONTROL (SWIC) PROGRAM

Who should apply?

Local agencies constructing publicly owned facilities to protect groundwater quality.

Low interest loans

- \$12 Million available
- Maximum Loan Term of 20 years
- Interest rate is 1/2 the most recent General Obligation Bond Sale

Other benefits

- Not subject to CWSRF fundable list
- Not subject to Federal requirements (i.e. CEQA-plus, American Iron and Steel, Davis-Bacon Wage Determination, Disadvantaged Business Enterprise)

Slide No. 23

SEAWATER INTRUSION CONTROL (SWIC) PROGRAM

Eligibility Requirements

- Necessary to protect groundwater;
- Basin subject to a groundwater management plan;
- Threatened by seawater intrusion and necessary to prevent destruction or injury to groundwater quality;

Possible Projects include:

- Water Conservation;
- Freshwater well injections; and
- Substitution of groundwater pumping from local surface supplies

For more information and how to apply please visit:
https://www.waterboards.ca.gov/water_issues/programs/grants_loans/swic.shtml

Slide No. 24

SWIC CONTACT

Mr. Michael Downey, Senior Engineer
 Email: michael.downey@waterboards.ca.gov
 Phone: (916) 324-8404

Website:
https://www.waterboards.ca.gov/water_issues/programs/grants_loans/swic.shtml

Slide No. 25

GROUNDWATER: SB 445 Site Cleanup Subaccount Program (SCAP)

- Funding Available
 - Annual Appropriation of \$19.5 million
- Eligible Projects
 - ONLY human-made contaminants (i.e., Nitrates, PCE, TCE, DCE, DCA, pesticides, perchlorate, MTBE, hexavalent chromium, etc.)
 - Remediate harm or threat to human health, safety, and the environment from surface or groundwater contamination
 - Regulatory agency has issued a directive, unless infeasible
 - Responsible party lacks financial resources

Slide No. 26

GROUNDWATER - SCAP Grants

- Priorities based on 5 considerations
 - Significant threat to human health or the environment
 - Disadvantaged or small community impact
 - Cost and environmental benefit of cleanup
 - No other funding source(s) available other than SCAP
 - Other State Water Board considerations
- Timeline
 - Pre-application available and review of applications ongoing
 - Over 250 applications reviewed since inception
 - 57 projects funded as of January 2019

Slide No. 27

GROUNDWATER - SCAP Grants

- Former Country Hills Cleaners, Diamond Bar
 - SCAP funds were used to inject chemical reductants to destroy PCE in groundwater as a pilot study. Full implementation is planned pending sampling results.

Slide No. 28

GROUNDWATER - SCAP Grants

- Former Time Oil Co., West Sacramento
 - A fast-paced project to remove 2,500 tons petroleum-impacted soils at a former bulk terminal site on the Sacramento River. Removal of contaminated soil allowed the West Sacramento Flood Control Agency to complete a levee restoration project by the end of summer 2018.

Slide No. 29

Proposition 1 GROUNDWATER SUSTAINABILITY

- Funding Available
 - \$800 million to prevent or clean-up contamination of groundwater that serves or has served as drinking water source
 - \$80 million for treatment and remediation of groundwater that serves as a source of drinking water
 - \$160 million for DACs (at least \$80 million to Severely DACs)
 - Minimum local cost share ("match funds") of 50%
 - Federal grants & loans, local & private funding, or donated & "in-kind" services
 - Repayable financing received through the DWSRF or CWSRF, or other state or federally sponsored loan program, may be used for match
 - Reduced match requirements for DACs or economically distressed areas (EDAs)

Slide No. 30

Proposition 1 GROUNDWATER SUSTAINABILITY

- **Eligible Applicants** - Public agencies, non-profit organizations, public utilities, tribes, and mutual water companies
- **Eligible Projects**
 - Prevent or clean up contamination of groundwater that serves or has served as a source of drinking water including, but not limited to:
 - Wellhead treatment
 - Installation of extraction wells combined with treatment systems
 - Centralized groundwater treatment systems
 - Groundwater recharge to prevent/reduce contamination of wells
 - Groundwater injection to prevent seawater intrusion
 - Project must be high priority per applicable regulatory agencies

Slide No. 37

Proposition 1 GROUNDWATER SUSTAINABILITY

- **Timeline (Third Round)**
 - Solicitation will be in 2020
- **Application Process**
 - Concept Proposal (RFP available in FAAST)
 - Full Proposal submittal only by invitation
 - Solicitation will include deadlines to complete Concept Proposal and Full Proposal for third round

Slide No. 37

Proposition 68 GROUNDWATER TREATMENT AND REMEDIATION

- **Funding Available**
 - \$80 million in grants for treatment and remediation activities
- **Eligible Projects**
 - must prevent or reduce the contamination of groundwater that serves as a source of drinking water
- **Timeline:**
 - Draft Guidelines: May 2019
 - Funding Guidelines: August 2019
 - Solicitation Opens: Fall 2019
 - Awards: Spring 2020

Slide No. 38

GROUNDWATER QUALITY FUNDING

Phone: (800) 813-FUND (3863)
 Email: gwquality.funding@waterboards.ca.gov
 Website:
http://www.waterboards.ca.gov/water_issues/programs/grants_loans/gw_funding/

Slide No. 38

Proposition 1 STORM WATER GRANT PROGRAM

- \$200 million for grants for multi-benefit (water quality/ supply, flood control, open space) storm water management projects
- **Eligible Applicants:** Public agencies, 501(c)(3) non-profit organizations, public utilities, tribes, and mutual water companies
- 50% local match requirement
 - Cannot be state sources of funds
 - May reduce for DACs/EDAs

Slide No. 39

Proposition 1 STORM WATER GRANT PROGRAM

- **Storm Water Resource Plans (SWRP)**
 - Required for storm water projects funded with bonds
 - Includes prioritized list of projects on a watershed basis
 - Incorporated into Integrated Regional Water Management (IRWM) Plans
 - DACs with population < 20,000 and not co-permittees with larger MS4's are exempt
- **Prop 1 SWGP Guidelines**
 - Currently in the process of being updated
 - Draft guidelines will be posted to the SWGP webpage for public comment in early 2019.

Slide No. 39

Proposition 1 STORM WATER GRANT PROGRAM

- Implementation Grants
 - Round 2 (~\$90 million): Tentatively scheduled for Mid to Late 2019
 - Eligible projects must
 - Be included in a SWRP submitted to the IRWM Region
 - If SWRP not required (small DAC), project must still be submitted to the local IRWM Plan
 - Respond to climate change, contribute to regional water security, contain multiple benefits, and be designed to infiltrate, filter, store, evaporate, treat, or retain storm water or dry weather runoff

Slide No. 37

Proposition 1 STORM WATER GRANT PROGRAM

- Katella High School Storm Water Capture Project, Anaheim

Slide No. 38

Proposition 1 STORM WATER GRANT PROGRAM

Mr. Daman Badyal, Senior Engineer

Slide No. 39

STATE WATER RESOURCES CONTROL BOARD: DIVISION OF FINANCIAL ASSISTANCE

*Providing Financial Assistance for Projects that
Serve the Water Boards' Mission to
"Preserve, Enhance, and Restore California's
Water Resources"*

<http://www.waterboards.ca.gov>

Part 2 of 2

Slide No. 40

Drinking Water State Revolving Fund (DWSRF)

- Low interest loan program with limited principal forgiveness funds
 - Current Interest Rate is 1.9%
- Two types of funding:
 - Planning
 - Construction
- No pre-application or invitation process

Slide No. 41

DWSRF (Cont.)

- Eligible Project Types:
 - Projects that return public water systems to compliance with drinking water standards
 - Consolidation
 - Water meters
 - Treatment projects
 - Replacement of aged water transmission or distribution mains, groundwater wells, or other infrastructure
 - Private Laterals
- Eligible Applicants:
 - Community water systems
 - Non-profit, non-community water systems

Slide No. 42

DWSRF (Cont.)

- **Planning Funding**
 - 5-year or 10-year loan term (can rollover into construction funding)
 - Financing based on water system's ability to repay
- **Construction Funding**
 - Standard loan term is 30 years for Public Water Systems, 40 years for DACs/SDACs may be offered based on funding availability
 - No funding cap
 - Planning costs eligible for reimbursement if not paid through a DWSRF Planning Project

Slide No. 43

Assistance for Water Systems Serving Disadvantaged Communities

- **Financial Assistance**
 - Disadvantaged Community (MHI < 80% statewide MHI) can receive up to 100% principal forgiveness
 - In addition, 0% interest financing at a 40 year term are available

Slide No. 44

DWSRF and Propositions

- Approximately \$215 million in funding available (Proposition 68/Principal Forgiveness)
- Per SFY 2019/20 DWSRF Intended Use Plan*
 - Construction Grants or Principal Forgiveness (PF):
 - Max of \$5 million
 - Small DAC ($\leq 10,000$ ppl or 3300 connections; MHI $\leq 853,735$) may be eligible for 100% grant or PF upon qualification
 - Small Severely DAC (MHI $\leq 40,301$) may be eligible for up to 100% grant or PF, regardless of water rates
 - Expanded small severely DAC water systems ($\leq 20,000$ ppl or 6,600 connections; MHI $\leq 40,301$) may be eligible for up to 50% grant or PF upon qualification
 - Planning Grants:
 - 100% eligible project costs (Max of \$500,000)

Slide No. 45

Consolidation Incentive

- Available to Public Water Systems who consolidate a Small Disadvantaged Community
 - Consolidation project will receive terms based on Small DAC's eligibility
 - In addition, the remaining Public Water System can receive up to \$10 million in 0% interest financing

Slide No. 46

DWSRF Project Example

- Armona Community Services District
 - Arsenic Treatment Project – Total Cost: \$9,285,866
 - \$5,000,000 in principal forgiveness
 - \$4,285,866 in 0% interest financing at a 30 year term

Slide No. 47

DWSRF Project Example

- Armona Community Services District
 - Arsenic Treatment Project – Total Cost: \$9,285,866
 - \$5,000,000 in principal forgiveness
 - \$4,285,866 in 0% interest financing at a 30 year term

Drinking Water for Schools Grant Program

- FY 2016-17 (Senate Bill 828)
 - \$9.5 million in grants to improve access and quality of drinking water in public schools.
 - Application Period Ended 3/1/2019
- FY 2018-19 (Senate Bill 862)
 - \$6.8 million in grants to improve access and quality of drinking water in public schools.
 - Application Period and Implementation to be determined

Slide No. 50

Drinking Water for Schools Grant Program (FY 16-17 and FY 18-19)

Eligible Projects:

- Water Bottle Filling Stations
- Drinking Fountains
- Point-of-entry or point-of-use treatment devices (includes up to 3 yrs. O&M)
- Lead Contamination Corrective Measures
 - Replacement or repair of drinking water fixtures
- Alternative Water supplies if permanent solution is being implemented

Slide No. 51

Drinking Water for Schools Grant Program

- Technical Assistance Available
 - Scope of Work
 - Spread awareness about the grant program
 - Assist with completing applications

Slide No. 53

EMERGENCY DRINKING WATER/ CLEANUP & ABATEMENT ACCOUNT (CAA)

- Urgent Drinking Water Needs Projects
- Cleanup and/or abatement of a waste Projects
- Other programs to address household needs

Slide No. 54

CAA- Urgent Drinking Water Need Projects

• Eligible Entities

- Public Agencies
- Not-for-Profit Organizations
- Tribal Governments
- Community Water Systems

} serving a Disadvantaged Community (DAC)

• Eligible Project Examples

- Interim water supply (bottled water, hauled water)
- Well Repair/Rehabilitation, Well Replacement
- Emergency Interties, Consolidation
- Treatment Systems
- Rented, purchased equipment

Slide No. 55

CAA – Cleanup and/or Abatement of Waste Projects

• Eligible Entities

- Public Agencies authorized to clean up a waste or abate the effects of a waste on waters of the state, including Regional Boards
- Tribal Governments
- A not-for-profit organization
- Community Water System

} serving a DAC

Slide No. 56

CAA – Cleanup and Abatement of Waste

- Must cleanup a waste or abate the effects of a waste on waters of the State, including both surface water and groundwater
- Eligible Project Examples
 - Removal of abandoned marine vessels and marine debris
 - Groundwater Cleanup/Remediation
 - Oil/Diesel Spill Cleanup/Response Efforts

Slide No. 57

Programs for Disadvantaged Households

- Drinking water well repair and replacement for wells that are not able to produce sufficient flow, i.e. dry wells
- Connection to sewer, septic replacement, connection to public water system
- More Information on CAA Webpage

Slide No. 59

ORPHAN SITE CLEANUP FUND (OSCF)

• Eligible Projects

- Principal source of contamination from an on-site petroleum underground storage tank (UST)
- No financially viable responsible party

• Eligible Applicants: Any entity type, except State and Federal

- Owns or has access to the property
- Must not be eligible for UST Cleanup Fund
- Did not cause or contribute to UST petroleum release
- Must not be affiliated with any person who caused or contributed to UST petroleum release

• Maximum Funding: \$1 million (per project)

Slide No. 60

ORPHAN SITE CLEANUP FUND (OSCF)

- Richmond Filbert Street Project
 - Housing Developer targeted 14 lots, 2 lots were former gas stations. \$1.6 million total OSCF funding received.

Before:

After:

Slide No. 67

ORPHAN SITE CLEANUP FUND (OSCF)

- Gateway Project
 - OSCF granted \$556,000 to clean up unauthorized release from an on-site petroleum underground storage tank.
 - The gas station and low-end retail was converted to a four-story development for affordable senior housing

Slide No. 68

NONPOINT SOURCE (NPS) GRANT PROGRAM

- Supported by funds from United States Environmental Protection Agency section 319(h) of the Federal Clean Water Act (CWA) and state Timber Regulation and Forest Restoration Fund
- Program focus:
 - Reduce NPS waste discharges that threaten or impair surface and ground waters
 - Support work in targeted watersheds (http://www.waterboards.ca.gov/water_issues/programs/nps/docs/plans_policies/sjp_2014to2020.pdf)
 - Implement Total Maximum Daily Load (TMDL) requirements (CWA 319h projects only)
 - Address post-fire recovery in areas declared a state of emergency by Governor (2017-18)
 - Implement forest management measures on forest lands to improve water quality

Slide No. 69

CWA 319(h) – Landsmart On-The-Ground Implementation of Management Practices on Sonoma Creek Vineyards

- Identify vineyard sites and implement management practices to improve water quality at vineyards within the Sonoma Creek watershed, an impaired waterbody that is the subject of a 2008 sediment Total Maximum Daily Load (TMDL).
- Conduct workshops to educate equipment operators, landowners, and on-site field crew about proper ways to stormproof rural roads and implement erosion control measures on vineyards

Slide No. 65

Timber Regulation & Forest Restoration Fund – Battle Creek Watershed Based Plan

- Battle Creek watershed, a tributary to the Sacramento River in Northern California, is critical to the recovery of listed Chinook salmon and steelhead. Sediment is the primary water quality concern and is negatively impacting anadromous habitats.
- Funding provided to develop and implement a watershed-based plan that:
 - Identifies and addresses sediment impacts on fish habitat and water quality
 - Establishes adaptive management practices to ensure long-term maintenance of fish habitat quality and resiliency to natural disturbance

HOW TO APPLY

All funding applications accepted online through the Financial Assistance Application Submittal Tool (FAAST):

<https://faast.waterboards.ca.gov/>

- If your community has an economic hardship, technical assistance providers may be available to assist with electronic submittal
- FAAST tutorials are available online:
<http://www.waterboards.ca.gov/videos/faast.shtml>

Apply Now!

Slide No. 68

TECHNICAL ASSISTANCE (TA)

- Proposition 1 TA is intended to provide TA to Small Disadvantaged (DAC) communities to pursue funding for drinking water, wastewater, groundwater remediation, and storm water capital improvement projects
- Assistance types include:
 - Application assistance
 - Legal assistance
 - Project coordination and development
 - Engineering and environmental analysis
 - Rate studies, income surveys
 - Leak detection

Slide No. 69

TECHNICAL ASSISTANCE (TA)

- Other contracts are also available to assist small water systems that are not Proposition 1 TA eligible
- Drinking Water State Revolving Fund TA (regardless of DAC status) can assist with tasks such as
 - Funding applications;
 - Technical, Managerial, and Financial (TMF) Assessments;
 - Rate studies; Income survey;
 - On-site and On-line training

California State Water Resources Control Board (SWRCB)

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
State Water Resources Control Board									
Clean Water State Revolving Fund (CWSRF) Program: Wastewater Treatment Projects and Expanded Use	Loan Financing* *Grants available for small disadvantaged communities	Provide low interest financing for wastewater treatment facilities and for nonpoint source and estuary projects	Public Agencies, 501 (c)(3) non-profit organizations, federally recognized tribes and state tribes on Native American Heritage Commission consult list	CEQA+	Collection and treatment facilities or systems including eligible reserve capacity, process control systems, onsite solids handling; allowance costs (planning, design, construction management); mitigation measures mandated by state and/or federal agencies; and stormwater treatment and diversion, sediment and erosion control, stream restoration, land acquisition, septic system replacement, agricultural drainage	Operations and maintenance costs, legal fees, decorative items, construction or improvements on private property	None	Interest rate is ½ of the latest general obligation bond rate (may be reduced for certain small disadvantaged communities) Repayment term of 30 year.	Bob Pontureri (916) 341-5828 Small Disadvantaged Community Wastewater Projects: Jennifer Toney (916) 319-8246
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/grants_loans/srf/index.shtml								
Water Recycling Funding Program – Construction Loan and Grant Program	Loan and/or Grant	Provide construction loans and grants for water recycling projects	Public Agencies, Water Utilities regulated by the CPUC, Federally recognized Tribes, and Mutual Water Companies with the intent to construct Municipal wastewater reclamation facilities.	CEQA+ for CWSRF funds and CEQA for Prop 1 and 13 funds	Construction of water recycling distribution, storage, pumping, treatment, including groundwater recharge facilities and spreading basins	Including but not limited to: O&M, decorative items, improvements on private property, all other items that are not part of the construction contract (except allowances)	Prop 13 Construction grants are limited to 25 percent of the eligible construction cost or \$4 million whichever is less. Prop 1 grants are limited to 35% of the eligible construction cost or \$5 million whichever is less.	Continuous application process Interest rate is ½ of the general obligation bond Repayment term of 30 years	Michael Downey (916) 324-8404
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/grants_loans/srf/index.shtml								

California State Water Resources Control Board (SWRCB)

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Water Recycling Funding Program – Facilities Planning Grant Program	Grant	Planning of Recycled Water. Determine the feasibility of using recycled water to offset the use of fresh/potable water from state and/or local supplies.	Only local public agencies are eligible to receive a facility planning grant.	NA	Preparation of a complete facilities planning report (stamped and signed by a licensed California engineer), including a market assessment, alternative analysis, development of user assurances and preparation of a construction financing plan.	Pollution control studies, in which water recycling is an alternative, are not eligible.	50 percent of eligible costs up to \$150,000.	Continuous Application Process.	Michael Downey (916) 324-8404
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/grants_loans/water_recycling/index.shtml								
State Water Resources Control Board									
Seawater Intrusion Control Loan Program	Financing		City, county, district, joint powers authority, or other political subdivision of the state involved in water management.	CEQA	Eligible projects may include, but are not limited to, water conservation, freshwater well injection, and substitution of groundwater pumping from local surface supplies. Construction of distribution, storage, pumping, injection wells and treatment facilities.	O&M, legal costs, land, change orders and claims	Eligible projects funded on a first-come-first-served basis. The date of the Division's approval of a complete application will determine the order.	Interest rate is ½ of the general obligation bond Repayment term of 20 years	Michael Downey (916) 324-8404
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/grants_loans/swic.shtml								

California State Water Resources Control Board (SWRCB)

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
SCAP (Site Cleanup Subaccount Program)	Grant or Contract	For addressing the harm to human health or the environment from the contamination of surface or groundwater. Grants: Provide financial assistance to eligible applicants to investigate or cleanup surface and groundwater. Contracts: Services for corrective action overseen by Regional Water Boards for source identification, investigation, corrective action.	Regulatory directive issued, and RP lacks financial resources to implement response to directive. State Water Board must consider: (1) harm to human health/safety/environment; (2) small or disadvantaged communities; (3) the potential environmental benefit; (4) whether there are other potential resources of funding.	UNK	Grants: Reasonable and necessary costs incurred by the grant recipient for investigation or cleanup groundwater contamination pursuant to H&SC 25299.50.6 (e)(1). Contracts: State or Regional Water Board determination of contaminant source, investigation, or cleanup pursuant to H&SC Section 25299.50.6 (b)(1) (2)	None specified in law.	None specified in law.	SCAP funds available upon appropriation in State Budget. Fund sunsets 01/01/2026.	Kathryn Dominic (916) 449-5591
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/ustcf/sb445/								
Groundwater Sustainability Funding Program (Proposition 1)	Grants	Provide funds for projects to prevent or clean up the contamination of groundwater that serves or has served as a source of drinking water.	Public Agencies, Indian tribes, Non-profits, Public Utilities, and mutual water companies	CEQA	Planning and implementation projects meeting the priorities and preferences in the funding guidelines, which are currently being developed.	Operation and maintenance activities	Guidelines are in development.	To be determined.	Robert Reeves (916) 319-8254
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/grants_loans/gw_funding/								

California State Water Resources Control Board (SWRCB)

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Storm Water Management Grant Program (Proposition 1)	Grant	Provide planning funds for stormwater resource plans and project-specific planning activities. Provide implementation funds for construction of multi-benefit storm water management projects.	Public Agencies, Indian tribes, Non-profits, Public Utilities, and mutual water companies 50% match is required, with possibility of match reduction for projects benefiting Disadvantaged Communities or Economically Distressed Areas	CEQA	Planning and implementation projects meeting the priorities and preferences in the funding guidelines (approved December 15, 2015). Implementation project types include green infrastructure, storm water capture and use, and storm water treatment facilities. Final design and planning for the project are among eligible expenses.	Operation and maintenance activities	Planning (\$50,000 - \$500,000) Implementation (\$250,000 - \$10,000,000)	Planning Solicitation Closes March 18, 2016. Round 1 Implementation Pre-Application closes April 15, 2016. Round 1 Implementation closes July 8, 2016. Round 2 Implementation opens in 2018 (subject to change).	Daman Badyal (916) 341-5877
Webpage:	http://www.waterboards.ca.gov/swgp								
Drinking Water State Revolving Fund/ Proposition 68	Loans Grants	Provide low interest loans or grants to assist public water systems in achieving or maintaining compliance with the Safe Drinking Water Act (SDWA)	Must be a public water system Project must be needed to comply with the SDWA and/or water works standards System must meet technical, managerial, and financial requirements Grants may be available to small disadvantaged water systems	CEQA / NEPA	Water treatment facilities, replace aging infrastructure, planning studies, consolidation of water systems, etc.	Dams or rehab of dams, O&M costs, lab fees for monitoring, projects mainly for fire protection or future growth, etc.	No limit or cap on loan funding. Check current IUP for grant eligibility and maximums.	Loan: Interest rate is ½ the general obligation rate. Repayment term of either 30 or 40 years. 2019 interest rate is 1.9%. The rate changes every January. Potential for extended 40-year terms and reduced interest rates, as low as zero percent, for public water systems serving a small disadvantaged community with financial hardship.	Uyen Trinh-Le (916) 323-4719

California State Water Resources Control Board (SWRCB)

Program	Type	Purpose	Eligibility Requirements	CEQA/ NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/ Dates	Contact
Drinking Water for Schools Grant Program	Grant	Improve access to, and the quality of, drinking water in public schools	Local educational agencies serving K-12, pre-school, and child day care facilities; located on public school property. All projects must benefit students from a disadvantaged community	CEQA	Install water bottle filling stations, drinking fountains, Point of entry or Point of use devices, corrective measures for lead contamination, and alternative water supplies	Projects that do not improve access and quality of drinking water in public schools	Minimum grant of \$25K up to \$100K for a single school. Minimum grant of \$25K up to \$1M for an eligible entity	Applications can be submitted on a continuous basis through FFAST	Kim Hanagan (916) 323-0624
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/grants_loans/schools/								
CAA Interim Emergency Drinking Water Program	Grant	For addressing the interim emergency drinking water needs of those communities that suffer from drought related water outages or threatened emergencies and disadvantaged communities with a contaminated water supply.	Eligible recipients are the following: (1) A public agency; (2) A tribal government that is serving a disadvantaged community, (3) A not-for-profit organization serving a disadvantaged community; or (4) A community water system that serves a disadvantaged community.	CEQA / NEPA if applicable	Eligible Projects (included, but not limited to) Bottled Water, Well Repair, Well Rehabilitation, and Replacement Vending Machines, Point of Use Devices, (for example, Filtration) Hauled Water, Emergency Interties, Treatment Systems, etc'	Ineligible projects for this funding include, but are not limited to: 1. Projects that are not addressing a drinking water emergency or projects that can be funded through other means; 2. Demonstration or pilot projects; 3. Requests to subsidize or offset increases in water rates; 4. Projects for which there is a responsible party for the contamination and the responsible party has a legal obligation and financial capacity to meet the emergency drinking water need.	Emergency funding will generally be limited to \$250,000 per project, including both grant and direct expenditures, unless the State Water Board determines that the size of the community and nature of the emergency require a greater expenditure of funds to adequately address the emergency.	Complete the funding application online via FFAST.	Kim Hanagan (916) 323-0624

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Orphan Site Cleanup Fund (OSCF)	Grant	For corrective action of releases from petroleum underground storage tanks (UST). Provides financial assistance to eligible, non-RP applicants to cleanup sites where there is no financially responsible party.	Principal source of contamination is from Petroleum UST. Regulatory directive issued unless case closed. RP lacks financial resources to implement response to directive. Applicant (1) cannot be eligible to the UST Cleanup Fund; (2) Did not cause or contribute to the release; (3) has no affiliation with a person who caused or contributed to the release; (4) If not a property owner, must demonstrate site access.	N/A	Grants: In accordance with regulatory directives, (1) Assessment: Response actions that characterize, assess, or investigate a petroleum UST release. UST system removal, free product removal, and soil excavation, not to exceed 500 cubic yards, if site investigation finds unknown USTs. (2) Cleanup: Response actions to implement a corrective action plan. IF case closed, remediation must be in accordance with site development and overseen by regulatory agency and comply with California Code of Regulations, title 23, chapter 16, article 11.	Non-petroleum, non-UST. See Designation of Reasonable and Necessary Reimbursable Costs and Upcoming Additional Charges memo: http://www.waterboards.ca.gov/water_issues/programs/ustcf/docs/reimbursement_instructions/rsnble_nec_costs.pdf	\$1 Million as of 01/01/15	OSCF funds available until Fund sunsets January 1, 2026, or until funds are exhausted.	Lola Barba (916) 341-5009
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/ustcf/oscf.shtml								
319(h) Non-point Source Grant Program	Grant	Projects to reduce nonpoint source pollution consistent with Total Maximum Daily Loads (TMDLs) that address impaired water	Public Agencies Local Agencies Non-profits Indian Tribes	CEQA/NEPA if applicable	Implementation projects addressing NPS Program Preferences in the Grant Guidelines	Projects or activities required by or that implement a National Pollutant Discharge Elimination System permit. Additional ineligible uses in the NPS Grant Program Guidelines.	\$4.5 million total, with \$75K to \$125 K per planning project, and \$250K to \$750K per implementation project. Maximum grant project period is three years. Requires 25% match	Annual solicitation, with applications through FFAST.	Jeanie Mascia (916) 323-2871
Webpage:	http://www.waterboards.ca.gov/water_issues/programs/nps/319grants.shtml

California Department of Water Resources (DWR)

FUNDING OVERVIEW

DWR is currently advertising

14

grant and loan programs
with upcoming or continuous solicitations

General Obligation Bonds

Prop 68 - California Drought, Water Parks, Climate, Coastal Protection, and Outdoor Access for All Act of 2018.

Prop 1E - Disaster Preparedness and Flood Protection Bond Act of 2006

Prop 1 - The Water Quality, Supply, and Infrastructure Improvement Act of 2014

Prop 50 - Water Security, Clean Drinking Water, Coastal, and Beach Protection Act of 2002

Prop 84 - Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006

Prop 13 - The Safe Drinking Water, Clean Water, Watershed Protection and Flood Protection Bond of 2000

Eligible Applicants

- Local public agencies** (CWC §10535)
 - Cities
 - Counties
 - Special districts (Reclamation Districts, Flood Control Districts, etc.)
 - Joint powers authorities
 - Political subdivisions of the state
 - Public utilities (Section 216 of Public Utilities Code)
 - Mutual water companies (Section 2725 of PUC)
- Tribal governments**
- Nonprofit organizations**
- Universities** (some programs)

Contact the programs to determine applicant eligibility requirements

www.water.ca.gov/Work-With-Us/Grants-And-Loans

Grants and Loans

We offer a number of grant and loan programs that support integrated water management activities addressing environmental stewardship, water supply reliability, public safety, and economic stability. Public agencies are eligible for most of our grant and loan programs, but other applicants may also be eligible. Depending upon the program, the water grant program announcements are found below, followed by additional grant program details.

Open Solicitations

- California Water Use Efficiency Loan Program**
This program offers \$20 million in loans to local agencies for specific types of water conservation and water use efficiency projects and programs that aim to reduce water waste and targets. Loans are available on a first come, first served basis until funds are exhausted.
- Water Conservation Grant Program**
Watershed grants for application preparation for Continuous Aquifer Recharge. March 16, 2019 meeting. Available for Continuous Aquifer Recharge.
- Central Valley Subwatershed Program**
The program will fund water quality-based risk reduction projects that will address flood risk for urban communities, small communities and/or rural areas, and/or enhance water quality, improving fish and wildlife habitat and water quality. Applications are due February 15, 2019.

How to find out more

DWR Website

Regional Programs

IRWM IMPLEMENTATION GRANTS

East Bay Municipal District - Pipeline interconnections in Berkeley, CA
Improved 52 miles of aqueduct reliability.

California Department of Water Resources (DWR)

Integrated Regional Water Management (IRWM) Grant Program

- Nearly \$58 million previously awarded for planning and disadvantaged community (DAC) involvement grants
- Approximately \$403 million** is available for IRWM implementation grants (Specific funding amounts allocated to 12 Prop 1 Funding Areas in California)
- No less than \$51 million of this amount** is for projects that directly benefit a DAC (80% of median household income; see online mapping tool)
- 50%** non-State cost share required per Prop 1 – waived/reduced for DAC or economically distressed areas (EDA)

48 IRWM Regions in CA

- Funding through an established IRWM region
- Projects identified through the regional process, consistent with the IRWM plan
- Interregional collaboration via pre-application workshops

Integrated Regional Water Management (IRWM) Grant Program

Round 1 – Spring 2019

- Final PSP published: April 2019
- Pre-Application Materials Submittal and Optional Workshop (date determined by Funding Areas): June – September 2019
- Grant applications due to DWR: Unique deadline for each Funding Area, approximately 14 weeks after Pre-Application Materials Submittal (~ September – Dec. 2019)
- Awards announced: Late 2019 – early 2020

Round 2 – 2021-2022

- Will include funding to DAC-benefit projects identified through in-progress Prop 1 DAC Involvement Grant Program

<https://water.ca.gov/Work-With-Us/Grants-And-Loans/IRWM-Grant-Programs/Proposition-1>

Sustainable Groundwater Planning Grant Program

Purpose

Competitive grants for projects that develop and implement groundwater plans and associated projects in accordance with requirements established under Division 6 (commencing with Section 10000)

Sustainable Groundwater Planning Grant Program

Eligible Project Types in High/Medium Priority Basins in California include:
 Groundwater Sustainability Plan (GSP) development
 Projects associated with GSP development, such as:
 Public outreach
 Stakeholder governance and coordination
 Well installation
 Data management
 Modeling

Sustainable Groundwater Planning Grant Program

Proposition 1 Funding

- Approximately \$1.5 million available; remaining from past funding rounds

Proposition 68 Funding

- Just over \$48 million available
- Prop 68 requires set-aside for severely disadvantaged communities (80% of median household income) – draft Proposal Solicitation Package (PSP) will provide details.
- Proposed: 25% non-State cost share required (waived or reduced for disadvantaged community or an economically distressed area)

California Department of Water Resources (DWR)

Sustainable Groundwater Planning Grant Program

Tentative Dates:

- Draft Guidelines/PSP – Spring 2019
 - Final Guidelines/PSP and grant applications due – Summer 2019
- Dates contingent on DWR release of final basin boundary modifications, basin prioritizations and Alternative Plan review decisions.*

<https://water.ca.gov/Work-With-Us/Grants-And-Loans/Sustainable-Groundwater>

Riverine Stewardship Program

San Joaquin Fish Population Enhancement Program (SJFPEP)
Urban Streams Restoration Program (USRP)

Riverine Stewardship Program

\$47.4 million from Propositions 13, 84, and 68

Purpose: To fund projects that benefit native fish populations, with a focus on salmon and steelhead, and support local communities under two programs:

- San Joaquin Fish Population Enhancement Program
- Urban Streams Restoration Program

Urban Streams Restoration Program

Technical Assistance Projects:

- Stream cleanups
- Watershed coordination
- Stewardship and education
- Stream daylighting
- Bank stabilization projects
- Revegetation efforts
- Recontouring of channels to improve floodplain function
- Acquisition of strategic floodplain properties or easements

Urban Streams Restoration Program

Prop 84 and Prop 68 Funding

- \$9.42 million
- \$1 million cap per project
- 20% to be awarded to DAC per Prop 68 requirements
- Sponsor and a co-sponsor partnership for applications
 - Local Public Agency
 - One citizen's group or non-profit organization.

Final Guidelines and Proposal Solicitation Package:

Released July 1, 2019. Applications are due by August 30, 2019.

www.water.ca.gov/Programs/Integrated-Regional-Water-Management/Urban-Streams-Restoration-Program

San Joaquin Fish Population Enhancement Program

Projects must be designed to address at least one, but ideally more than one, of the following fish-related restoration objectives:

- Spawning and rearing habitat
- Food availability
- Predator control
- Water quality and temperature
- Habitat connectivity and migration enhancements
- Natural river processes and morphology

California Department of Water Resources (DWR)

San Joaquin Fish Population Enhancement Program

Prop 13 Funding

- \$38 million
- Projects must be within the Lower San Joaquin River Watershed
- Projects must be consistent with
 - CALFED Stage 1 Actions
 - 2014 NMFS Recovery Plan
 - Voluntary agreements identified as part of the Bay-Delta Water Quality Control Plan

Final Guidelines and Proposal Solicitation Package was released on July 1, 2010.
Applications are due by November 1, 2010.

Safe Drinking Water Programs

CONTINUOUS SOLICITATIONS BASED ON AVAILABLE FUNDS

Apply Now — Safe drinking water and contaminant removal technologies

Safe Drinking Water

Contaminant Removal Technologies

- Test new technologies for contaminant removal
- Disinfection using ultraviolet and ozone treatment

Safe Drinking Water Contaminant Removal Technologies

Prop 50 Funding

- \$10 million
- 25% of funds for DACs
- 50% cost share
- No match required for DACs or small water systems
- Grant cap of \$5 million

Contact the Safe Drinking Water Program
Steve Giambone (916) 653-9722

Water Use Efficiency Programs

Orland Water Users Association — Prop 50 funding, 2015

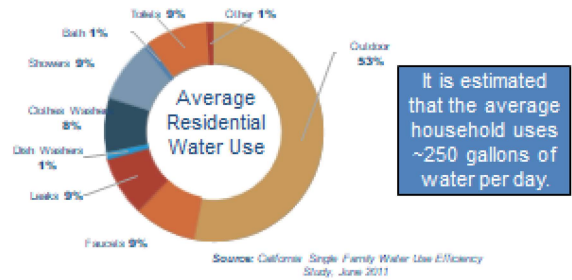

CalConserve Program Water Use Efficiency Revolving Loan

Objective

To provide loans to local agencies to help their customers with:

- Pilot projects for installation of water-saving upgrades
- Leak repair/replacement

CalConserve Program Water Use Efficiency Revolving Loan

It is estimated that the average household uses ~250 gallons of water per day.

CalConserve Program

Water Use Efficiency Revolving Loan

Prop 1 Funding

- \$7 million remaining funds
 - \$2 million for water efficiency upgrades
 - \$5 million to repair or replace leaking water pipes
- \$3 million cap per project

Continuous solicitation based on available funds.

www.water.ca.gov/Work-With-Us/Grants-And-Loans/Cal-Conserve-Water-Use-Efficiency-Loan-Program

Flood Protection Programs

Folsom Dam project funded by Prop 1E - with five spill gates open, releasing water to the American River in Folsom, CA - December 2016

Floodplain Management, Protection, and Risk Awareness

Floodplain Management, Protection, and Risk Awareness

- Stormwater, mudslide, and other flash-flood-related protections.
- 90% of funds Local Assistance grants.
- 10% of funds for planning and non-structural purposes, including mapping, hazard mitigation planning, risk awareness and data collection activities.

Floodplain Management, Protection, and Risk Awareness

Prop 68 Funding

~\$25 million funds available; up to 90% state reimbursement

Draft Guidelines expected in mid-late 2019.
PSP anticipated to be released early 2020.

<https://www.water.ca.gov/Work-With-Us/Grants-And-Loans/>>>>

Flood Management Assistance Program

This program will ensure that State Plan of Flood Control facilities are properly maintained and have sufficient resources and funding to meet applicable federal regulations and operation and maintenance manual requirements.

Flood Management Assistance Program

General Fund

~\$20 thousand for PL 84-99

~\$20 thousand for operations, maintenance, repair and rehabilitation.

Draft Guidelines are available on the website. Application period opens in May 2019.

<https://water.ca.gov/News/Blog/2018/Dec-18/FMAP-Proposal-Solicitation>

Coastal Watershed Flood Risk Reduction

Coastal communities across the state are being severely impacted by current flooding. Funded projects will address the pressing and unique challenges faced by coastal urban and non-urban areas.

Coastal Watershed Flood Risk Reduction

Projects will address issues including (but not limited to):

- Coastal flood system improvements to increase public safety.
- Coastal flood-reservoir improvements.
- Actions to resolve ecosystem, climate change and flood management conflicts.
- Examples include investments in projects that will reduce local flood impacts while also addressing critical habitat needs.

Coastal Watershed Flood Risk Reduction

Prop 1 Funding

~\$27 million funds available

Draft Guidelines are currently out for public comment.
PSP anticipated to be released in late 2019.

<https://www.water.ca.gov/Work-With-Us/Grants-And-Loans/Coastal-Watershed-Flood-Risk-Reduction>

California Department of Water Resources (DWR)

Delta Flood Emergency Response Grants

Funding for local agencies within the Sacramento-San Joaquin Delta Region

Delta Flood Emergency Response Grants

Type of projects:

- Flood Emergency Preparedness Planning and Mapping
- Improvement of Flood Emergency Preparedness Systems
- Flood Emergency Training and Exercises
- Purchase and stockpiling of FloodFight Materials
- Flood Emergency Response Facilities

Delta Flood Emergency Response Grants

Prop 1 and Prop 1E Funding

Up to \$10 million available

Draft Guidelines published in spring 2019.
PSP anticipated to be released in summer 2019.

Delta Levees Program

Maintenance Subventions

Eligibility

Delta levee system maintenance projects

- Levee Maintaining Agencies in the Sacramento/San Joaquin Delta
- Project and non-project levees in the primary zone of the legal Delta
- Non-project levees in the secondary zone of the legal Delta

Delta Levees Program Maintenance Subventions

Prop 84, 1E and 1 Funding

The Subventions Program is authorized by California Water Code Sections 12980 through 12995

- Local levee maintaining agencies are responsible for the first \$1,000 per levee mile
- Program reimburses up to 75% of eligible costs
- Claim submittals accepted on annual basis pursuant to executed funding agreement

FY 2018-19 final claims due November 1, 2019

www.water.ca.gov/Work-With-Us/Grants-And-Loans/Delta-Levees-Maintenance-Subventions

Delta Levees Program Special Flood Control Projects

PROP 1E and 84 FUNDING

\$60 million available

Guidelines and Multi-benefit
Proposal Solicitation Package
release in spring 2020

Assembly Bill 360

- Levee Maintaining Agencies
- Reclamation Districts
- Other government agencies responsible for levees in the Delta
- Flood protection improvement and habitat restoration projects in the Delta

DWR REGIONAL PROGRAMS

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Integrated Regional Water Management (IRWM) Proposition 1 Chapter 7, §79744(a)	Grant	Grant funds for implementation of projects that have been vetted/selected in established regional competitive processes and are included in or consistent with IRWM plans. Goals of Projects: (a) help water infrastructure systems adapt to climate change, including sea level rise, (b) provide incentives for water agencies throughout each watershed to collaborate in managing the region's water resources and setting regional priorities for water infrastructure, and (c) improve regional water self-reliance consistent with Section 85021. Other priorities/preferences described in proposal solicitation package (PSP).	Eligible Applicants: Public Agencies, Nonprofit Organizations [501(c)(3) qualified to do business in California], federally recognized tribes, State-recognized tribes listed on NAHC consultation list, public utilities, mutual water companies. Eligible projects must be included in or consistent with IRWM plans, and plans must be updated to DWR 2016 Standards. No more than one grant application accepted per IRWM region (48 in the state). Other eligibility criterion described in PSP.	CEQA. Projects must be CEQA ready within 12 months of grant award in order to execute grant agreement (requirement waived for DAC-benefit projects). Also see PSP.	Including projects that support water reuse and recycling; water-use efficiency and water conservation; surface and underground water storage; water conveyance facilities; watershed protection, restoration, and management; conjunctive use; decision support tools; improvement of water quality; storm water resource management. Also see PSP.	Operation and maintenance activities. Also see PSP.	Approximately \$403 million will be made available in grants to be awarded in two rounds, starting in 2019 with Round 1 (Round 2 expected 2021-22), with not less than \$51 million awarded to projects that directly benefit disadvantaged communities. Actual amounts to be awarded in each round, and timing for application processes for each of the 12 funding areas, will depend on each funding area's readiness to receive and expend the funds, and the readiness of their projects, considering CEQA, cost-share availability, etc.	Draft Guidelines and Round 1 PSP released for public comment: Oct 2018. Final Guidelines and PSP released April 2019. Pre-application workshops to be held in each of 12 funding areas, June-September 2019. Applications from regions within each funding area approximately 12 weeks following the pre-application workshop. Awards anticipated late 2019/early 2020.	Rachel Ballanti (916) 651-7193

California Department of Water Resources (DWR)

DWR SUSTAINABLE GROUNDWATER PROGRAMS

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Sustainable Groundwater Planning (SGWP) Grant Program Guidelines from Proposition 1 (Chapter 10, Section 79774) Proposition 68 (Chapter 11.8, Section 80146(b))	Grant	To provide funds for projects consistent with groundwater planning requirements outlined in Division 6 of the California Water Code, commencing at Section 10000.	Public agencies, non-profit organizations, federally recognized tribes, State-recognized tribes listed on the Native American Heritage Commission's (NAHC) tribal consultation list, and mutual water companies (Water Code Section 97917 a-b).	CEQA	1. Projects must serve Severely Disadvantaged Communities (SDAC), Disadvantaged Communities (DAC), Economically Distressed Areas (EDAs), and/or tribes in a critically overdraft basin. 2. Activities associated with the planning, development, or preparation of GSP(s) that will comply with and meet the requirements of GSP regulations.	Projects that do not advance sustainable management of groundwater or support water quality protection as outlined in Division 7 of the Water Code (79707(h)).	Approximately \$46.25 million will be available for solicitation from Proposition 68 and approximately \$1.5M will be available from remaining Proposition 1 funds. See PSP for funding limits. Note: Proposition 68 requires that at least 20 percent of funds will be allocated for projects serving SDACs, but it is unclear at this point if this planning grant program will have that requirement. (It may be satisfied through another DWR technical assistance program managed by the Sustainable Groundwater Management Office.)	Tentative dates: Draft Guidelines and Planning Grant PSP released spring 2019; Application round anticipated in summer 2019. The solicitation date is dependent upon DWR release of the final basin boundary modifications, basin prioritizations, and alternative plan reviews in progress. The solicitation for the final planning round cannot be opened until those three are completed.	Kelley List (916) 651-9222
Sustainable Groundwater Implementation Grant Program Proposition 68 (Chapter 11.8, Section 80146(a))	Grant	To provide funds for projects that address drought and groundwater investments to achieve regional sustainability for investments in groundwater recharge with surface water, storm water, recycled water, and other conjunctive use projects, and projects that prevent or clean up contamination of groundwater that serves as a source of drinking water.	Public agencies, non-profit organizations, federally recognized tribes, State-recognized tribes listed on the NAHC's tribal consultation list, and mutual water companies, and groundwater sustainability agencies (GSAs) or member agencies of GSAs for the basin.	CEQA	Development of groundwater recharge projects with surface water, storm water, recycled water, and other conjunctive use projects, and/or projects that prevent or clean up contamination of a groundwater that serves as a source of drinking water. Projects must be consistent with a groundwater sustainability plan (GSP).	Projects that do not advance sustainable management of groundwater or support water quality protection as outlined in Division 7 of the Water Code (79707(h)).	Approximately \$90 million will be available.	Draft PSP expected in 2020/2021.	Kelley List (916) 651-9222

DWR RIVERINE STEWARDSHIP PROGRAMS

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Riverine Stewardship Urban Streams Restoration Program Proposition 68 Proposition 84	Grant, Direct Expenditures	The Urban Streams Restoration Program provides funding for local communities for projects to reduce flooding and erosion and associated property damages; restore, enhance, or protect the natural ecological values of streams; and promote community involvement, education, and stewardship.	Requires a sponsor and co-sponsor including one tribe or public agency and one local/non-profit/citizens group. Projects not serving a disadvantaged community will be required to provide a 20 percent match.	CEQA	Stream cleanups, watershed coordination, stewardship and education, stream daylighting, bank stabilization projects, revegetation efforts, recontouring of channels to improve floodplain function, acquisition of strategic floodplain properties or easements.	Advanced funds, costs prior to award date, purchase of non-integral equipment, establishing reserve a fund, replacement source of funding for an ongoing program, purchase of land in excess of fair market value, payment of principle interest on a loan, indirect overhead costs.	Proposition 68 was recently passed and includes \$7.6 million for the Urban Streams Program Local Assistance PSP. \$1.84 million available from Proposition 84. \$1 million award cap per project.	Final Guidelines and PSP released July 1, 2019.	Marc Commandatore (916) 651-9630
Webpage:	www.water.ca.gov/Programs/Integrated-Regional-Water-Management/Urban-Streams-Restoration-Program								
Riverine Stewardship San Joaquin Fish Population Enhancement Program Proposition 13	Grant, Direct Expenditures	The Urban Streams Restoration Program provides funding for local communities for projects to reduce flooding and erosion and associated property damages; restore, enhance, or protect the natural ecological values of streams; and promote community involvement, education, and stewardship.	Public agency, non-profit groups, tribes	CEQA	Spawning habitat projects, rearing habitat projects, water temperature improvement projects, hydraulic modification, cold water reserves, channels, modifications, shading, native plants. Habitat connectivity projects that link habitat structure to poor-quality river reaches. Migration enhancements through barrier removal and/or flow adjustments. Restoration of natural river processes and morphology.	Advanced funds, costs prior to award date, purchase of non-integral equipment, establishing reserve a fund, replacement source of funding for an ongoing program, purchase of land in excess of fair market value, payment of principle interest on a loan, indirect overhead costs.	No limits set for direct expenditures or grants. No match requirements. Projects must be within the geographic boundaries of the lower San Joaquin watershed.	Final Guidelines and PSP released July 1, 2019.	Marc Commandatore (916) 651-9630

DWR DRINKING WATER PROGRAMS

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Safe Drinking Water – Contaminant Removal Technologies Ultra violet and Ozone Treatment Proposition 50 (Chapter 6 Section 79545(c))	Grant	Drinking water disinfecting projects using ultra violet technology and ozone treatment	Eligible applicants are public water systems and California Native American Tribes under the regulatory jurisdiction of the California State Water Resources Control Board (SWRCB) (formerly the California Department of Public Health (CDPH)) and other public entities.	CEQA	Systems that have a maximum contaminant level compliance violation, surface water treatment microbial requirements, or mandatory disinfection required by SWRCB or local agency. Systems must demonstrate the ability to operate and maintain treatment facility. Ozone projects must be designed to minimize residual by-products.	Projects that do not meet technical, managerial, and financial capacity requirements.	Up to \$5 million per grant. Non-state cost share required. Designated funds are being held for disadvantaged communities. No match required for disadvantaged communities or small water systems.	The application period is open on a continuous basis as long as funds are available.	Steve Giambrone (916) 653-9722
Webpage: Contact program directly									
Safe Drinking Water – Contaminant Removal Technologies Pilot and Demonstration Projects Proposition 50 (Chapter 6 Section 79545(b))	Grant	Pilot and demonstration projects for contaminant removal technologies	Eligible applicants are public water systems and California Native American Tribes under the regulatory jurisdiction of SWRCB (formerly CDPH) and other public entities.	CEQA	Pilot and demonstration projects for contaminants such as: • Petroleum products • Nitrosodium-ethylamine • Perchlorate • Radionuclides • Pesticides • Herbicides • Heavy metals • Pharmaceuticals • Endocrine disruptors	A proven/existing contaminant removal technology method. (Studies must use new technologies.) Grant funds cannot be used for the operation and maintenance after pilot study is complete.	Up to \$5 million per grant. Non-state cost share required. Designated funds are being held for disadvantaged communities. No match required for disadvantaged communities or small water systems (public water system serving less than or equal to 1,000 service connections or less than or equal to a population of 3,300.)	The application period is open on a continuous basis as long as funds are available.	Steve Giambrone (916) 653-9722

DWR WATER USE EFFICIENCY PROGRAM

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
CalConserve Revolving Fund Proposition 1 Chapter 7, §79746(a)	Loan	Water conservation and water use efficiency. CalConserve Water Efficiency Revolving Fund loans for local agency customer water saving upgrades and repairs. Also leak detection and repair.	Local agencies: any city, county, city and county, municipal utility district, community services district, sanitary district, sanitation district, water district as defined in Section 20200, public water system as defined in Section 116275 of the Health and Safety Code, or private water company under the jurisdiction of the Public Utilities Commission.	CEQA	Zero-interest loans for local agencies to fund residential water use efficiency upgrades and/or leak detection repair.	Any non-local agency project that is not for residential water use upgrades.	\$6.75 remaining funds available; \$1.75 million for water use efficiency pilot programs; \$5 million for leak detection and repair.	The application period is open on a continuous basis as long as funds are available.	Olivia Willis (916) 651-9663

DWR FLOODPLAIN MANAGEMENT

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Floodplain Management, Protection, and Risk Awareness Proposition 68 - 80145(a)(2)	Grant	Grants for storm water, mudslide, and other flash-flood-related protections. DWR proposes to establish the new program with these funds.		CEQA	Grants for storm water, mudslide, and other flash-flood-related protections. Some funds would be used for planning and non-structural projects, including mapping, hazard mitigation planning, risk awareness and data collection activities.		~\$25 million Approximately 90 percent of funds would go out as local assistance grants and 10 percent of funds would be used for necessary planning and non-structural purposes.	Guideline Development: 2019 Project Solicitation: 2020 Anticipated Allocations Announced: Late 2020	Robert Crane (916) 574-0912
Webpage:	TBA								
Flood Management Assistance Program - Local Assistance General Fund	Grant	FMAP is a new program that provides State funds for eligible maintenance activities to local maintaining agencies (LMAs) and maintenance areas (MAs).	SPFC facilities only. Local levee maintaining agencies and reclamation districts	CEQA	This program will help ensure that State Plan of Flood Control facilities are properly maintained and have sufficient resources, including funding to meet applicable federal regulations and operation and maintenance (O&M) manual requirements.	Ineligible uses: • LMAs eligible for Delta Subventions Program funding • O&M of levees that were recently improved, or are to be improved under the EIP/UFRRP or a USACE project • Maintenance activities identified in the LMA's submittal covered by local funding	\$20K for Public Law 84-99 eligibility, \$20K for securing operations, maintenance, repair, rehabilitation and replacement funding additional funds for maintenance.	\$10.8 million is available. Application period opens for fiscal year 2019-20 in May 2019.	Jeff Van Gilder (916) 574-2745

DWR FLOOD RISK AND REDUCTION

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Delta Flood Emergency Response Grants Program Proposition 1 Proposition 1e	Grant	The objective of the Flood Emergency Response Grant is to improve local flood emergency response in California and contribute to increased public safety.	California Public Agencies within the legal Delta, including primary and secondary zones with primary responsibility for flood emergency response and coordination.	Varies	Examples of eligible projects include: <ul style="list-style-type: none"> • Preparing or updating the local flood emergency plan • Emergency planning, preparedness, training, exercises • Purchasing materials needed for flood emergencies as well as equipment procurement/installation • Developing flood emergency response facilities. 		Proposition 1E \$10 million Proposition 1 \$5 million Planned Solicitation in Summer 2019 (for \$10 million) Funds available continuously for directed funding (see program guidelines for definition of "directed funding").	Third round solicitation for \$5 million of Proposition 1E and \$5 million of Proposition 1 (\$10 million total) will be released in summer 2019 with awards by 2020.	William Wong 916-574-2305
Webpage:	https://water.ca.gov/Work-With-US/Grants-And-Loans/Flood-Emergency-Response-Projects-Grants								
Coastal Watershed Flood Risk Reduction Proposition 1 (79780)	Grant	Funded projects will address the pressing and unique challenges faced by coastal urban and non-urban areas. Projects will address issues including coastal flood system improvements to increase public safety, coastal flood-reservoir improvements, actions to resolve ecosystem, climate change, and flood management conflicts.	Local agencies, non-profit entities, public utility, tribes, mutual water companies.	As needed	Coastal flood risk reduction projects with ecosystem benefits.	Non-coastal areas. Planning or design only.	Approximately \$27 million. Program guidelines expected in 2019.	Draft Program guidelines out for public comment, final guidelines and proposal solicitation expected in late 2019.	Patrick Luzuriaga (916) 574-0932
Webpage:	https://water.ca.gov/Work-With-Us/Grants-And-Loans/Coastal-Watershed-Flood-Risk-Reduction

DWR DELTA LEVEES PROGRAMS

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
Delta Levees Program Delta Levee Maintenance Subventions, 75033 Proposition 84 & 1E	Grant (Claims Reimbursement)	Maintain and rehabilitate non-project and eligible project levees in the Delta	Local levee maintaining agencies and reclamation districts located within the Delta. Levees not part of the State-Federal Flood Control System. California Native American tribes are eligible if they are an agency or political subdivision of the State that is authorized to maintain levees (California Water Code Section 12980(c).	CEQA	Delta Levee System maintenance projects that meet goals of the California Water Code Sections 12980 – 12995.	Projects that do not meet requirements for environmental mitigation (Assembly Bill 380) and agricultural irrigation or drainage projects.	Approximately \$12 million available. Up to 75 percent state reimbursement for eligible costs, pursuant to executed funding agreement.	Claim submittals accepted on an annual basis, pursuant to executed funding. Applications begin April 1, 2019, for fiscal year 2019-20. Claims paid based on available state funding. Final subventions claims due November 1, 2019.	Sandi Maxwell (916) 480-5378 Andrea Lobato (916) 480-5387
Webpage: https://www.water.ca.gov/Work-With-Us/Grants-And-Loans/Delta-Levees-Maintenance-Subventions									
Delta Levees Program Special Flood Control Projects 75033 Proposition 84, 1E & 1	Grant	Improvement and enhancement of the Delta levee system and habitat restoration in the Delta. Projects located within the Delta.	Local levee maintaining agencies and reclamation districts. California Native American tribes are eligible if they are a public agency responsible for the maintenance of a non-project levee or a project levee in the Delta. (California Water Code Section 12310(a))	CEQA	Flood protection improvement projects and habitat restoration in the Delta.	Projects that do not meet requirements for environmental mitigation (Assembly Bill 380) and agricultural irrigation or drainage projects.	\$80 million available. Up to 100 percent State reimbursement for eligible costs, pursuant to executed funding agreement.	Multi-benefit PSP will be released in spring 2019. Claim submittals accepted on monthly basis based on project expenditures, with executed funding agreement.	Jon Wright (916) 480-5389 Andrea Lobato (916) 480-5387

Program Overview

CalHome Program Disaster Funds

HCD released a Notice of Funding Availability (NOFA) for \$100 Million in response to four FEMA Declarations to make funds available to those affected by disaster events

- Eligible Applicants Included:
 - Local Jurisdictions and Nonprofits in Counties Impacted by 2017-2018 Disasters
- Eligible Activities Included:
 - FTHB Mortgage Assistance
 - Owner Occupied Rehabilitation
 - Technical Assistance for Self-Help Projects and Shared Housing Programs
 - Homeownership Project Development Loans

6

California Dept. of Housing and Community Development (HCD)

Funding Amounts by County

County	Approximate CalHome Allocation
Butte	\$34 Million
Lake	\$6 Million
Los Angeles	\$7 Million
Mendocino	\$6 Million
Napa	\$7 Million
Nevada	\$1 Million
Orange	\$1 Million
San Diego	\$3 Million
Santa Barbara	\$3 Million
Shasta	\$7 Million
Sonoma	\$20 Million
Ventura	\$7 Million
TOTAL	\$100 Million

8

Community Development Block Grant (CDBG)

9

Community Development Block Grant

CDBG Program Overview

- Federal grant program funded by the Department of Housing and Urban Development (HUD)
- Created by the Housing and Community Development Act of 1974
- Grants to cities and counties
- State of CA administers "Non-entitlement" program
- HUD administers "Entitlement" program for large cities and urban counties

ALL PROJECT & PROGRAM ACTIVITIES MUST MEET A NATIONAL OBJECTIVE

Benefit Low Income Household	Mitigate Slums and Blight	Meet an Urgent Need (Disaster)
------------------------------	---------------------------	--------------------------------

10

CDBG Eligible Activities

Community Development (CD):	
Housing Rehabilitation Program	Public Facilities Projects
Public Services Programs	Public Improvements Projects
Housing Acquisition Program	
Economic Development (ED):	
Microenterprise Assistance Programs	
Business Assistance Loans Project	
Over the Counter Project Loans	
Planning and Technical Assistance (ED & CD)	
Comprehensive Plans and ED Strategies	
Individual Project Plans	
Environmental Studies	
Community Development Plans	

11

Infrastructure in Support of New Construction Rental Housing

CDBG funds were used for off-site infrastructure. The total development costs was \$9,676,750 with CDBG financing \$925,000 towards the affordable housing units.

Private Infrastructure in Support of Economic Development Project

69 jobs retained in the City of Arcata. The total project cost of \$5M - \$2.5M from the business and \$2.5M from CDBG. The "green" air filtration system allowed Humboldt Flakeboard Plywood Company to meet state air quality standards.

12

California Dept. of Housing and Community Development (HCD)

CDBG Disaster Recovery

Funding

- Approximately \$491 Million in funding to be allocated to the State of California, a large portion dedicated to the *Camp Fire* Recovery Efforts.
- *Specific approved uses of funds are not currently available pending the publication of the federal register*

14

Emergency Solutions Grant Program ESG

Funding

The federal Emergency Solutions Grant program (ESG) provides funds for a variety of activities to address homelessness

- Eligible Activities include:
- Street Outreach
- Rapid Re-Housing Assistance
- Emergency Shelter
- Homelessness Prevention.

ESG funds may be used for associated Homeless Management Information System (HMIS) costs and administrative activities for some subrecipients.

15

California Emergency Solutions and Housing CESH

Funding

The California Emergency Solutions and Housing (CESH) Program provides funds for a variety of activities to assist persons experiencing or at risk of homelessness

Eligible activities include:

- Housing relocation and stabilization services (including rental assistance)
- Operating subsidies for permanent housing flexible housing subsidy funds
- Operating support for emergency housing interventions systems support for homelessness services and housing delivery systems.

Some administrative entities may use CESH funds to develop or update a Coordinated Entry System (CES), Homeless Management Information System (HMIS), or Homelessness Plan.

16

Home Investment Partnership Program HOME

Purpose and Assistance Type

- Assist cities, counties, developers, including Native American Entities, and CHDOs to create and retain affordable housing.
- Grants to cities and counties; low interest loans to developers, including Native American Entities and CHDOs operating in State eligible jurisdictions.
- **Eligible Applicants:** Cities and counties that do not receive HOME funds directly from HUD; developers, including Native American Entities and current CHDOs proposing activities in eligible communities.
- **Eligible Activities:**
 - Housing rehabilitation
 - New construction
 - Acquisition and Rehabilitation
 - Predevelopment loans to CHDOs.

Program	Type	Purpose	Eligibility Requirements	CEQA/NEPA	Eligible Uses	Ineligible Uses	Funding Limits	Terms/Dates	Contact
WATER FUNDING PROGRAMS									
Community Development Block Grant (CDBG) Program	Grants to City and County Jurisdictions	Project must principally benefit low/moderate income persons/households. For example: Water system upgrades for residents of communities with over 51% of its residents being low/moderate income or extend water service to a site for a business that creates jobs for low/moderate income persons.	Cities or counties that do not receive funding from HUD's CDBG entitlement program. Jurisdictions can pay for their own system or provide the funds to private or public systems.	NEPA	Pay for project feasibility study, final plans and specs, site acquisition and construction, and grant administration costs. Pay for repair or new construction of town's water tank. Pay for one-time assessment fees for low income families. Pay for installation of private laterals and hook up fees for low income families under our Housing Rehabilitation activity.	Maintenance costs. Refinancing of existing debt. Inquire regarding special restrictions for Native American and Colonia funding.	Funding limits vary by activity as specified in each NOFA. Six Types of Activities: 1-Housing Assistance, 2-Public Facilities, 3-Infrastructure and Infrastructure in Support of Housing, 4- Public Services, 5- Planning and Technical Assistance 6-Economic Development	Notice of Funding Availability (NOFA) scheduled for release in mid 2019. Jurisdiction sets type of financing and terms (grants vs. loans)	Connie Mallavia (916) 263-2711 Jon Diederich (916) 263-2561
Webpage:	http://www.hcd.ca.gov/fa/cdbg/index.html								
WASTEWATER FUNDING PROGRAMS									
Community Development Block Grant (CDBG) Program	Grants to City and County Jurisdictions	Project must "principally" benefit low/moderate income persons/households For example: Make upgrades to a sewage collection and treatment system for residents of a community with over 51% of its residents being low/moderate income	Cities or counties that are not under HUD's CDBG entitlement program Jurisdictions can pay for their own system or provide the funds to private or public systems	NEPA	Pay for project feasibility study, final plans and specs, site acquisition and construction, and grant administration costs Rehabilitate or construct sewer/water lines or sewer lift station Pay for one-time assessment fees for low income families Pay for installation of private laterals and hook up fees for low income families under our Housing Rehabilitation activity	Maintenance costs Refinancing existing debt	Funding limits vary by activity as specified in each NOFA. Six Types of Activities: 1-Housing Assistance, 2-Public Facilities, 3-Infrastructure and Infrastructure in Support of Housing, 4- Public Services, 5- Planning and Technical Assistance, and 6-Economic Development	Notice of Funding Availability (NOFA) scheduled for release in mid 2019. COMMUNITY FACILITIES FUNDING PROGRAMS									
Community Development Block Grant (CDBG) Program	Grants to City and County Jurisdictions	Project must "principally" benefit low/moderate income persons/households For example: create a facility for homeless services or a healthcare facility in a community where at least 51% of residents are low income; or create/expand a public facility that creates jobs for low income persons	Cities or counties that are not under HUD's CDBG entitlement program Jurisdictions can pay for their own community facilities or provide the funds to other government agencies or private or non profit agencies	NEPA	Pay for project feasibility study, final plans and specs, site acquisition and construction costs (new construction or rehabilitation costs), and grant administration. Types of facilities: fire and police stations, homeless and battered family shelters, day care centers for seniors or kids, social service and health care facilities, teen centers, job training and business incubators.	Refinancing existing debt Buildings for general use by local government To be eligible, Public Facilities must provide HUD-eligible Public Services. Contact CDBG for additional information.	Funding limits vary by activity as specified in each NOFA. Six Types of Activities: 1-Housing Assistance, 2-Public Facilities, 3-Infrastructure and Infrastructure in Support of Housing, 4- Public Services, 5-Planning and Technical Assistance, and 6-Economic Development	Notice of Funding Availability (NOFA) scheduled for release in mid 2019. Jurisdiction sets type of financing and terms (grants vs. loans)	Connie Mallavia (916) 263-2711 Jon Diedesch (916) 263-2561

California Infrastructure and Economic Development Bank (IBank)

CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK (IBANK)

- The legislature created IBank in **1994** to finance public **infrastructure** and private **development** that creates **jobs** and a strong **economy** to improve the **quality of life** for the people of California.
- IBank has **broad authority** to issue tax exempt and taxable revenue bonds, provide financing to **public agencies**, leverage State and Federal funds and more.

	Infrastructure State Revolving Fund Program	Disaster Relief: Disaster Relief Loan Guarantee Program
	California Lending for Energy and Environmental Needs Center	
	Small Business Finance Center	Jump Start Loans: Loans from \$500 to \$10,000
	Bond Financing Program	

Infrastructure State Revolving Fund Program

ISRF DIRECT LOAN PROGRAM

Direct **financing** to public borrowers (and non-profit organizations sponsored by public entities) for a wide variety of **infrastructure** and **economic development** projects.

EXAMPLES OF ELIGIBLE PROJECTS

- Water, Sewage, Flood Control and Waste
- Streets, Highways, Public Transit and Public Safety Facilities
- Educational, Cultural, Social, Parks and Recreational Facilities
- Power and Communications
- Ports and Goods Movement Related Infrastructure

Infrastructure State Revolving Fund Program

ELIGIBLE APPLICANTS AND TERMS

<ul style="list-style-type: none"> Any Subdivision of a Local Government (Departments, Agencies, Commissions, Cities and Counties) Special Districts Joint Powers Authorities 	<ul style="list-style-type: none"> Funding available from \$50,000 to \$25 million Terms for the useful-life of the project up to 30 years Up to 100% of eligible project cost financed

California Infrastructure and Economic Development Bank (IBank)

Infrastructure State Revolving Fund Program
CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK

- Funding available from **\$50,000 to \$25 million.**
- Terms for the useful-life of the project **up to 30 years.**
- Up to 100% of eligible project cost financed.

ISRF CREDIT UNDERWRITING AND CRITERIA

- **Financial Condition** (Comprehensive Annual Financial Report or CAFR)
- **Sources of Repayment:**
 - Enterprise Revenues: rate payer fees; water, sewer, other
 - General Fund revenues
 - Property assessments
 - Other recurring revenues acceptable to IBank

SAN LUIS OBISPO COUNTY

Funds will support the construction of a new airport terminal at the SLO County Regional Airport

"We are filling the flights we have now, and they'd likely be disappearing if we weren't making this investment."

Loan Amount: \$6 Million
Interest Rate: 3.45%
Loan Term: 30 years

-Third District Supervisor, Adam Hill

California Lending for Energy and Environmental Needs Center
CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK

CLEEN CENTER GOALS

- ✓ Assist in achieving California's Greenhouse Gas Reduction Goals
- ✓ Drive down the cost of clean energy, water conservation and environmental projects
- ✓ Enhance market confidence in green investing

CLEEN CENTER DIRECT FINANCING

- Funding available in amounts ranging from **\$500,000 to \$30 million**
- Terms for the useful-life of the project
- Up to 100% eligible project costs financed

TYPES OF CLEAN ENERGY PROJECTS

- Generation**
 - Renewable energy, solar, wind, biomass, hydroelectric
- Conservation**
 - Energy efficiency retrofits, Light Emitting Diode (LED) lights
 - Building automation and controls
- Other**
 - Energy storage, transmission, distribution
 - Electric Vehicle (EV) charging stations
 - Alternative technologies, alternative fuels

California Infrastructure and Economic Development Bank (IBank)

STATEWIDE ENERGY EFFICIENCY PROGRAM (SWEEP)

COMPREHENSIVE ENERGY EFFICIENCY IMPROVEMENTS TO NEW AND EXISTING FACILITIES, FOR EXAMPLE:

 Light Emitting Diode (LED) Street Lighting	 Advance metering systems
 Data Center, information technology, communications	 Energy management and/or control systems
 Heating, ventilation and air conditioning system	 Thermal and electric energy storage

14

CITY OF HUNTINGTON BEACH

STREET LIGHT ACQUISITION AND LED RETROFIT PROJECT

Loan Amount: \$3 million

IBank's first CLEEN loan was for the acquisition and retrofit of more than 11,000 streetlights with new Light Emitting Diode (LED) technology. Expected annual energy savings -3.5 million kilowatt-hours the first year, lowering costs, making funds available for other services.

"This acquisition and retrofit represents a rare opportunity to improve the City's finances, infrastructure, light quality, and environmental footprint."

-Energy Manager Antonia Graham

16

SMALL BUSINESS FINANCE CENTER (SBFC)

Small Business Finance Center

- SBFC partners with Financial Development Corporations to provide **loan guarantees** for small businesses that experience **barriers to capital**.
- Helps businesses **create and retain jobs**, and encourages investment in low- to moderate-income communities.

17

SMALL BUSINESS LOAN GUARANTEE PROGRAM (SBLGP)

Since 1968 the SBLGP has guaranteed more than 30,000 loans to lending institutions that are committed to helping small businesses grow and prosper in **California**.

18

HOW IT WORKS

When a business is having difficulty **accessing capital**, the Small Business Loan Guarantee Program (SBLGP) provides the lender with added support in the form of a **loan guarantee**. It's like an insurance policy for the lender.

This provides **incentive** to lenders to offer loans to **small businesses** that were not otherwise eligible for traditional loans.

Financial institutions, credit unions and Community Development Finance Institutions make small business loans with the support of IBank guarantee to minimize the lender's risk. An Financial Development Corporation works as an agent of IBank to issue the guarantee to the lender for up to 80% of the loan.

Disaster Relief Loan Guarantee Program

WHO IS ELIGIBLE?

- Businesses in a DISASTER AREA WITH:
- Significant Physical Damage and/or
- Significant Economic Injury

- Maximum Guarantee Amount: \$1 million
- Guarantee Up to 95%

Small Business Finance Center
CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK

Jump Start Loan Program

Eligible Use of Loan Proceeds May Include:

- Start-Up Costs
- Property
- Buildings
- Machinery
- Equipment
- Inventory
- Tenant Improvements

Business Requirements:

- Must be a low-wealth entrepreneur located in a low-wealth community or Disaster Area

The Jump Start Loan Program (Jump Start) helps small businesses start, grow, and thrive. Jump Start provides technical assistance, financial literacy training and microloans.

LOAN TERMS:

- \$500-\$10,000
- Terms up to 5 years

Bond Financing Program
CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK

BOND FINANCING PROGRAM

Provides tax-exempt and taxable conduit revenue bond financing for:

- Qualified **nonprofit** public benefit corporations
- Eligible **manufacturing** and processing companies
- Government** agencies
- Privately owned facilities that provide services to the general public

TYPES OF BONDS

- 501(C)(3) Revenue Bonds**
for qualified nonprofit public benefit corporations for acquisitions and/or improvement of facilities
- Industrial Development Revenue Bonds**
up to \$10 million for eligible manufacturing and processing companies for construction or acquisition of facilities
- Public Agency Revenue Bonds**
for governmental entities
- Exempt Facility Revenue Bonds**
for projects that are government owned or provide improvements to privately owned facilities that serve the general public

- LOW-COST
- LONG-TERM

California Strategic Growth Council (CSGC)

Affordable Housing & Sustainable Communities Program California Financing Coordinating Committee

AHSC Overview & Goals

AHSC Program Vision

To fund projects that result in:

- the reduction of **greenhouse gas (GHG) emissions and vehicle miles traveled (VMT)** and
- **increased accessibility** of housing, employment centers and key destinations

through low-carbon transportation options such as walking, biking and transit.

What does it fund?

Eligible Capital Projects

1. Affordable Housing Development (loan)
Bricks and Mortar
2. Housing-Related Infrastructure (grant)
Required as Condition of Approval
3. Sustainable Transportation Infrastructure (grant)
Transit, Bike Lanes, Sidewalks
4. Transportation-Related Amenities (grant)
Bike Parking, Repair Kiosks, Urban Greening, Bus Shelters

Eligible Programs (3 Year Grants)

1. Active Transportation Programs
2. Transit Ridership Programs
3. Criteria Air Pollutant Programs
4. Workforce Development Programs

What does it NOT fund?

Ineligible Costs

1. Personal vehicles
2. Maintenance and operations for transit
3. Parking (except for charging infrastructure)
4. Standalone Single-family homes
5. Housing without a permanent foundation (Mobile Homes, Tiny Homes, etc.)

Funding

- Minimum Award: \$1 Million
- Maximum Award: \$20 Million
- Annual funding until 2030
 - Cap & Trade – 20% of proceeds
- Round 4 NOFA - \$400M
- Total to date: >\$1.1 billion
- Round 5 NOFA - \$550 million

California Strategic Growth Council (CSGC)

Eligible Project Types

TOD Transit Oriented Development	ICP Integrated Connectivity Project	RIPA Rural Innovation Project Area
Required: ✓ Affordable Housing	Required: ✓ Sustainable Transportation Infrastructure	Required: ✓ Sustainable Transportation Infrastructure
Required: At least 1 additional component: ☐ Sustainable Transportation Infrastructure ☐ Transportation Related Amenities ☐ Programs	Required: At least one additional component from the following: ☐ Affordable Housing ☐ Transportation Related Amenities ☐ Programs	Required: At least one additional component from the following: ☐ Affordable Housing ☐ Transportation Related Amenities ☐ Programs
Required Minimum Density: 30 units/acre	Required Minimum Density: 20 units/acre	Required Minimum Density: 15 units/acre
35% of awards	35% of awards	10% of awards

Who is Eligible to Apply?

Eligible Applicants		
Local Governments (City, County, City/County)	Local Transportation Agencies	Public Housing Authority
Transit Agency or Operator	Regional Transportation Planning Agency	Congestion Management Agency
Joint Powers Authority	School District	Facilities District
University or Community College District	Developer: Public, Private, or Nonprofit	Program Operator: Public, Private, or Nonprofit
Federally Recognized Native American Tribes		

AHSC Program Requirements & Scoring

Threshold Overview

Readiness Requirements

- CEQA/NEPA for Affordable Housing Developments
- Discretionary Land Use Approvals
- Demonstration of Site Control
- Developer Experience
- No active or Pending Litigation
- Housing Element Compliance
- Committed Funding Threshold

Threshold Overview

Program Goals

- Transit stop within 1/4 mile of AHD
- Sustainable Communities Strategy Implementation
- Agricultural Land Preservation
- Urban Greening Components
- Transit Passes for Residents
- "Smoke Free" Buildings
- Adequate Lighting for Public Spaces
- Affordability Threshold
- Air Pollution Education

Enforceable Funding

The Project must demonstrate a level of committed funding at time of application that is 0.90 or greater calculated by the following equation:

$$\frac{\text{AHSC funds requested} + \text{Enforceable Funding Commitments (EFCs)} - \text{Deferred Costs}}{\text{Total Development Cost} - \text{Deferred Costs}}$$

Agricultural Land Preservation

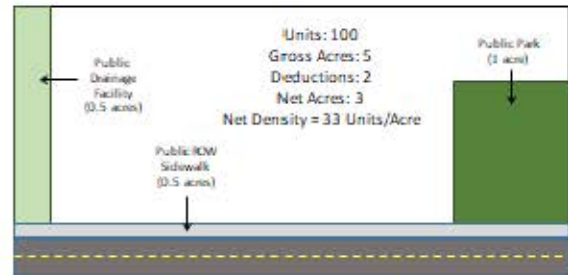

- Project must not result in loss or conversion of agricultural or working lands
- Use Farmland Mapping and Monitoring Program (FMMP) tool to verify
 - Exception for infill projects
 - 3 of 4 sides

Net Density

Net Density means the total number of dwelling units per acre of land to be developed for residential or mixed use, excluding allowed deductible areas.

Minimum Net Density Requirements		
Project Area Type	Residential units (projects)	Mixed-Use Projects (Mixed-Use Areas)
TOD	20 units per acre	30.0
ICP	20 units per acre	24.5
RPA	15 units per acre	18.75

AHSC Scoring Criteria

AHSC Scoring Elements and Criteria	
Criteria	Points
GHG Quantification Methodology Scoring	
GHG Efficiency	15
GHG Total	15
Quantitative Policy Scoring	
Active Transportation Improvements	10
Green Buildings and Renewable Energy	8
Housing and Transportation Collaboration	10
Location Efficiency and Access to Destinations	6
Funds Leverage	5
Anti-Displacement Strategies	5
Local Workforce Development and Hiring Practices	2
Housing Affordability Programs	2
Urban Greening	2
Narrative-Based Policy Scoring	
Collaboration & Planning	4
Community Benefit & Engagement	6
Community Climate Resiliency	3
Community Air Pollution Exposure Mitigation	2
Total Scoring	100

GHG Quantification Methodology Scoring- 30 Points

GHG Quantification Methodology Scoring	
GHG Reduction: Core Efficiency	15
GHG Reduction: Total GHG Reduction	15

- GHG Calculator Tool
 - Housing (4 of units, density)
 - Transportation (Bus or train service, walkway and bikeway improvements)
 - Solar Production
- Scored separately by Project Area Type
 - TOD
 - ICP
 - RPA

California Strategic Growth Council (CSGC)

Quantitative Policy Scoring- 55 Points

Quantitative Policy Scoring

Active Transportation Improvements	10
Green Buildings and Renewable Energy	8
Housing and Transportation Collaboration	10
Location Efficiency and Access to Destinations	6
Funds Leveraged	5
Anti-Displacement Strategies	5
Local Workforce Development and Hiring Practices	2
Housing Affordability Programs	3
Urban Greening	2

- Easy to score, quantifiable items; "checklist" approach
- Intent is not for projects to receive 100%; this will not be achievable for most projects

Narrative-Based Policy Scoring- 15 Points

Narrative-Based Policy Scoring

Collaboration & Planning	4
Community Benefits & Engagement	6
Community Climate Resiliency	3
Community Air Pollution Exposure Mitigation	2

- Open-ended narrative to allow for Applicants to showcase important aspects of Project

Palm Terrace RIPA Project – City of Lindsay

Project Details

- Housing**
 - 49 affordable housing units for 30-60% AMI
 - 14 one-bedroom
 - 18 two-bedroom
 - 18 three-bedroom
 - 100% Affordable
 - Density: 20 units/acre
 - 100% solar-powered
- Transportation**
 - Class 2 bike lanes, roundabouts, and other traffic calming measures at key intersection connecting neighborhood to Elementary School
 - Commuter vanpool available to residents of Lindsay Village and surrounding community—in partnership with CalVans

Palm Terrace RIPA Project – City of Lindsay

AHSC Funding Requests

- AHJ: \$4,043,694
- HJ: \$405,000
- STJ: \$3,069,699

Questions?

coral.abbott@sgc.ca.gov

California Rural Water Association (CRWA)

California
Rural Water Association

To provide training, technical assistance, resources and information to assist water and wastewater utilities in achieving high standards of service.

TRAINING

The academy of water education (awe) is the onsite training center of the California Rural Water Association. Our instructors have spent years in the field. These experienced men and women know the ins and outs of being an operator and bring that practical knowledge to the classroom. Awe onsite workshops allow participants to learn hands-on skills. Our approach is unique and takes the learning experience from theoretical to practical.

SPECIALIZED UTILITIES SERVICES

SUSP is an internal CRWA program that is able to provide both short- and long-term solutions to Utilities. SUSP has the flexibility and staffing to provide planned services by experienced operators and managers at very competitive prices. Staff have years of experience in the field and hold State Water Resources Control Board (SWRCB) certifications in treatment and distribution, and wastewater plant operations.

TECHNICAL ASSISTANCE

We have field staff who will visit you at your site to offer their assistance in the areas in which you need help.

- Assistance in developing State and Federally compliant Sourcewater Protection Plans.
- Circuit Rider Technical Assistance in operations, maintenance and management.
- Wastewater Training & Technical Assistance in operations, maintenance and management.
- SWRCB State Revolving Fund Specialists

Rural Community Assistance Corporation (RCAC)

Environmental Infrastructure Loans

Community Facilities Loans

Loan Fund contacts

Northern California:

Georgianne Pillsbury
(916) 917-4319
Fax: (916) 244-0990
Email: gpillsbury@rcac.org

Central/Southern California:

Mike Carnes
(559) 802-3381
Cell: (559) 731-8233
Fax: (559) 802-3391
Email: mcarnes@rcac.org

RCAC provides training, technical and financial resources and advocacy so rural communities can achieve their goals and visions.

RCAC's Loan Fund provides financing for the following program areas:

Environmental Infrastructure

RCAC provides loans to construct, improve or expand the supply of safe drinking water, waste disposal, solid waste and storm drainage systems. We offer construction loans and gap financing to maintain cash flow while grant funded projects await government funding disbursements and small capital needs long-term loans.

For information, visit <http://www.rcac.org/lending/environmental-loans/>

Community Facilities

RCAC provides financing to construct or improve essential community facilities. Eligible projects include health care facilities, public facilities, community support services, public safety services, educational services, utility services and local food systems.

For information, visit <http://www.rcac.org/lending/community-facility-loans/>

The Loan Fund also offers loans for Affordable Housing and Small Businesses. Visit www.rcac.org for more information.

Technical Assistance in the field

RCAC provides technical assistance (TA) to water, wastewater and solid waste systems. This includes assistance and training for technical staff, Median Household Income studies, funding application assistance for state and federal loans and grants, rate studies, policy development, regionalization and board training.

Our TA is in the form of classes or individualized support for disadvantaged communities and Tribes. Most of our services are funded by state and federal contracts and are free to most rural communities under 10,000 population.

To request Technical Assistance
