

California Financing Coordinating Committee

2021

Funding Fair

H A N D B O O K

Seeking Funding For Your Infrastructure Project?

MISSION STATEMENT

Infrastructure Financing for the 21st Century

The purpose of CFCC is to foster cooperation among the many funding agencies that administer water, wastewater, and other public infrastructure needs. The CFCC encourages the efficient use of funds by reducing administrative costs for recipients and funding agencies and evaluating methods for improved performance. CFCC members provide a forum to resolve state and federal program requirement conflicts that may make multi-funded projects difficult to administer. Additionally, funding fairs provide the CFCC with an opportunity to present current program information to the public. Attendees will also have the opportunity to speak with program staff directly.

What is CFCC?

Formed in 1998, CFCC composed of many state, federal, and local agencies. CFCC members facilitate and expedite the completion of various types of infrastructure projects helping customers combine the resources of different agencies. Project information is shared between members in support of identifying additional resources. Each year, CFCC members conduct free funding fairs to educate the public and potential customers about the different member agencies and the financial and technical resources available.

Who Should Attend

Representatives from water industry professionals, public works, local governments, and California Native American Tribes should attend. This includes city managers and planners, economic development and engineering professionals, officials from privately owned facilities, water and irrigation district managers, financial advisors, and project consultants.

Eligible Project Types

CFCC agencies fund the following types of eligible infrastructure projects: drinking water, wastewater, water quality, water supply, water conservation, water use efficiency, energy efficiency, and flood management. Some of the participating agencies also fund other types of infrastructure projects including streets and highways, emergency response vehicles, and community facilities.

CFCC Information

Please visit the CFCC website at www.cfcc.ca.gov for the CFCC member directory and general information.

Community Development Block Grant (CDBG)

- Housing
- Wastewater
- Water
- Roadways
- Community Facilities
- Public Accessibility

Program Guidelines

Community Development Block Grant

Type

Grants to city and county jurisdictions.

Funding Limits

Funding limits vary by activity as specified in each notice of funding availability (NOFA).

CEQA/NEPA

A NEPA environmental impact statement must be completed and submitted with application to meet program threshold requirements.

Terms/Dates

The NOFA released on January 29, 2021. Applications may be submitted online. Application submittal start date: January 29, 2021. Application due dates are as follows:

- Community Development Activities: April 30, 2021, by 5 p.m. (PDT)
- Economic Development Activities: May 31, 2021, by 5 p.m. (PDT)

Eligibility Requirements

Non-entitled cities or counties that do not receive funding from the U.S. Department of Housing and Urban Development's (HUD's) CDBG entitlement program.

Jurisdictions can pay for their own system, project, or community facilities, or grant or loan funds to private or public entities.

Contact HCD regarding special restrictions for Native American and Colonia funding.

Program Contacts

Roxann Kuhnert 916-263-6468
Felicity Gasser 916-263-6514

Public Improvements – Water

Purpose

The project must principally benefit low/moderate income persons/households. For example, make water system upgrades for residents of communities with more than 51 percent of its residents being low/moderate income, or extend water service to a site for a business that creates jobs for low/moderate income persons.

Eligible Uses

Pay for project feasibility study, final plans and specs, site acquisition and construction, and grant administration costs.

Pay for repair or new construction of town's water tank.

Pay for one-time assessment fees for low-income families.

Pay for installation of private laterals and hook-up fees for low-income families under housing rehabilitation activity.

Ineligible Uses

Maintenance costs.

Refinancing of existing debt.

Public Improvements – Wastewater

Purpose

The project must principally benefit low/moderate income persons/households. For example, make upgrades to a sewage collection and treatment system for residents of a community with more than 51 percent of its residents being low/moderate income, or extend wastewater system to a site for a business that creates jobs for low/moderate income persons.

Eligible Uses

Pay for project feasibility study, final plans and specs, site acquisition and construction, and grant administration costs.

Rehabilitate or construct sewer/water lines or sewer lift station.

Pay for one-time assessment fees for low-income families.

Pay for installation of private laterals and hook-up fees for low-income families under housing rehabilitation activity.

Ineligible Uses

Maintenance costs.

Refinancing of existing debt.

Public Improvements – Roadways

Purpose

The project must “principally” benefit low/moderate-income persons/households. For example, install new roads or curbs, gutters, and sidewalk, or new street drainage system for residents of a community with more than 51 percent of residents being low/moderate income.

Eligible Uses

Pay for project feasibility study, final plans and specs, site acquisition and construction, and grant administration costs. Must be rehabilitation or a new road and can include installing streetlights, landscaping, and sidewalks. For example, assist families to install sidewalks in front of their home.

Ineligible Uses

Maintenance costs.

Community Facilities

Purpose

The project must “principally” benefit low/moderate-income persons/households. For example, create a facility for homeless services or a healthcare facility in a community where at least 51 percent of residents are low income.

Eligible Uses

Pay for project feasibility study, final plans and specs, site acquisition and construction, and grant administration costs.

Types of facilities: fire and police stations, homeless and battered family shelters, day care centers for seniors or kids, social service and health care facilities, teen centers.

Ineligible Uses

Refinancing existing debt.

Buildings for general use by local government.

To be eligible, public facilities must provide HUD-eligible public services. Contact CDBG for additional information.

Other

Purpose

The project must “principally” benefit low/moderate-income persons/households. For example, create or improve a park in a community where at least 51 percent of residents are low/moderate income, or upgrade public access to a facility to comply with requirements of the Americans With Disability Act (ADA).

Eligible Uses

Pay for project feasibility study, final plans and specs, site acquisition and construction, and grant administration costs.

Installation of ADA improvements in public facilities.

Ineligible Uses

Maintenance costs.

Refinancing existing debt.

Building of general use by local government.

Inquire regarding special restrictions for Native American and Colonia funding.

Website: <http://www.IBank.ca.gov>
Email: IBank@IBank.ca.gov

*Rendering of IBank bond-financed
Powerhouse Science Center*

Bonds (tax-exempt or taxable)

- Section 501(c)(3) Bonds
- Industrial Development Bonds
- Public Agency Revenue Bonds
- Exempt Facility Bonds

Types of Bonds

Section 501(c)(3) Bonds

Tax-exempt financing to eligible nonprofit public benefit corporations for the acquisition or improvement of facilities and capital assets. Typical borrowers include cultural, educational, charitable and recreational organizations, research institutes, and other types of nonprofit organizations that provide public benefits.

Industrial Development Bonds

Tax-exempt financing up to \$10 million for qualified manufacturing and processing companies for the construction or acquisition of land, facilities, and equipment.

Exempt Facility Bonds

Tax-exempt financing for projects that are government owned or leased to private parties and may consist of improvements within publicly or privately owned facilities. The qualifying projects include private airline improvements at publicly owned airports, docks and wharves, mass commuting facilities, solid waste disposal facilities, high-speed intercity rail facilities, local district heating or cooling facilities, and facilities for the furnishing of water.

Public Agency Revenue Bonds

Bond financings for various state and local government agencies for various public or economic development projects.

Types of Loans

Loans – Infrastructure State Revolving Loan Fund (ISRF)

Purpose

The ISRF Program provides direct loan financing to public agencies and nonprofit corporations sponsored by public agencies, for a wide variety of infrastructure and economic development projects (excluding housing). ISRF financing is available in amounts ranging from \$50,000 to \$25 million with loan terms for the useful life of the project up to a maximum of 30 years.

Eligible ISRF applicants include any subdivision of a local government, including cities, counties, special districts, assessment districts, joint powers authorities, and eligible nonprofit corporations.

IBank's ISRF Program financed the new Fresno Yosemite International Airport.

Eligible ISRF projects include:

- City streets.
- County highways.
- State highways.
- Drainage, water supply, and flood control.
- Educational, cultural, and social facilities.
- Environmental mitigation measures.
- Goods movement-related infrastructure.
- Parks and recreational facilities.
- Port facilities, public transit.
- Power and communications facilities.
- Sewage collection and treatment.
- Solid waste collection and disposal.
- Water treatment and distribution.
- Defense conversion.
- Public safety facilities.
- Military infrastructure.
- Industrial, utility, and commercial.

Loans – California Lending for Energy and Environmental Needs (CLEEN) Center

Purpose

The CLEEN Center provides direct loan financing to public agencies including municipalities, universities, schools, and hospitals (MUSH borrowers) to help meet the State's goals for greenhouse gas reduction, water conservation, and environmental preservation. The CLEEN Center offers two programs: the Statewide Energy Efficiency Program (SWEEP) and the Light Emitting Diode (LED) Street Lighting Program. Financing can be in amounts from \$500 thousand to \$30 million.

Eligible CLEEN applicants include any subdivision of a local government, including cities, counties, special districts, assessment districts, joint powers authorities and nonprofit corporations (as deemed eligible), municipalities, public universities, schools, and hospitals.

Eligible CLEEN Projects include:

- Advanced metering systems to support conversion of master-metered buildings to sub-metering.
- Data center, information technology, communications.
- Energy management or control systems.
- Demand response programs.
- Water/wastewater, pipeline, mining/extraction, and similar end-use processes, facilities, buildings, and infrastructure.
- Lighting and control systems.
- Converting incandescent to CFL.
- LED repairs, replacements, and upgrades.
- Heating, ventilation, and air conditioning systems (HVAC).
- Building envelope.
- Occupant plug load management systems.
- Load reduction.
- Zero-emission vehicles.
- Hydrogen fueling stations.
- Thermal and electric energy storage.

Other projects with proven technologies will be considered.

Small Business Support

Purpose

The IBank Small Business Finance Center (SBFC) helps businesses create and retain jobs and encourages investment in low- to moderate-income communities. The SBFC has a Jump Start Loan Program, a Small Business Loan Guarantee Program, a Disaster Relief Loan Guarantee Program and a Farm Loan Program. The SBFC partners with seven Financial Development Corporations throughout the State.

Eligible Small Business Loan Guarantee applicants include eligible nonprofits and small businesses located in California with 1 to 750 employees and eligible nonprofits.

SBFC, Disaster Relief Loan Guarantee and COVID-19 Disaster Relief Loan Guarantee terms:

- Loans up to \$20 million.
- Max guarantee \$1 million.
- Guaranteed up to seven years; term can be longer.
- Guarantees up to 80 to 95 percent of loan.
- Loan interest rates negotiated between lender and borrower.
- Qualifications based on lender criteria.

Eligible uses of funds include:

- Start-up costs.
- Construction.
- Inventory.
- Working capital.
- Export financing.
- Franchise fees.

- Business expansion.
- Lines of credit.
- Gap financing.
- Agriculture.
- Disaster relief.

California Rebuilding Loan Fund

The California Rebuilding Fund is a loan program to support California's small businesses—especially those located in economically disadvantaged and historically under-banked areas of the state. Businesses who employed 50 or less full-time equivalent employees and had gross revenues of less than \$2.5 million or below in 2019 are eligible to apply.

The loans are flexible, transparent, and are designed to help businesses access the capital and advisory services they need to get through these challenging economic times.

The loans are not forgivable in part or whole. The loans will need to be paid back over a three- or five-year term with a fixed annual interest rate that is currently 4.25 percent.

Not all businesses will be matched with a participating community lender based on each lender's initial criteria. If matched, you will be connected with a local community lender, which will be a certified Community Development Financial Institution (CDFI). The community lender will work with you on your full loan application. If approved, the loan will be made through that community lender and you will continue to work with them throughout the life of your loan.

The following criteria is the minimum required for a business to be considered eligible for a loan under this program:

- The business must have employed 50 or fewer full-time equivalent employees prior to March 2020; please note: any and all affiliates are counted in this total, including businesses with shared ownership.
- The business must have had gross revenues of less than \$2.5 million in 2019.
- The business must have suffered a direct economic hardship as a result of COVID-19 which has materially impacted operations (as evidenced by at least a significant reduction in revenues since January 2020).

- The business must have returned to or sustained, for at least one-month, at least 30% of pre-COVID revenues relative to a similar period in 2019.
- The business must have demonstrated positive net income in 2019 (not including depreciation and amortization expenses).
- The business must have been in operation since at least June 30, 2019.
- The main office or headquarters for the business must be in California. The loan must be used to support only a business's California operations.

Eligible Jump Start Loan applicants include small businesses or individual(s) becoming a small business, located in California.

Jump Start Loan Program details:

- Borrowers must be a low-wealth entrepreneur with a business located in a declared disaster area, or
- Borrowers must be a low-wealth entrepreneur located in a low-wealth community within both:
 - A county with a per capita income equal to or less than 115 percent of the statewide average.
 - A city or unincorporated area with an unemployment rate equal to or greater than the statewide average.
- Borrowers annual income must be equal to or less than the statewide average.
- Loan proceeds must be used in California.

Eligible uses of Jump Start Loan funds include:

- Start-up costs.
- Property.
- Buildings.
- Machinery.
- Equipment.
- Inventory.
- Tenant Improvements.

2021 California Financing Coordinating Committee Funding Fair

Workshop Notes

[illegible]

California Governor's Office of Emergency Services (Cal OES)

Hazard Mitigation Assistance (HMA) Branch

California Governor's Office of Emergency Services
3650 Schriever Avenue
Mather, California 95655

Program Contacts

Ron Miller
Hazard Mitigation Operations
and Technical Analysis
916-845-8853
Ron.Miller@caloes.ca.gov

Carlene Croisdale
Hazard Mitigation Assistance
916-328-7553
Carlene.Croisdale@caloes.ca.gov

The Hazard Mitigation Assistance (HMA) Branch works to reduce vulnerability to disasters and their effects and promote community resiliency after a hazard event. Furthermore, HMA programs reduce response and recovery resource requirements in the wake of a disaster or incident, which results in a safer community that is less reliant on external financial assistance.

Visit Us

Cal OES website: <https://www.caloes.ca.gov/home>

Hazard Mitigation Grant Program (HMGP) website:
<https://www.caloes.ca.gov/cal-oes-divisions/recovery/disaster-mitigation-technical-support/404-hazard-mitigation-grant-program>

Pre-Disaster Mitigation & Flood Mitigation Assistance Program website:
<https://www.caloes.ca.gov/cal-oes-divisions/hazard-mitigation/pre-disaster-flood-mitigation>

HMA Eligibility Requirements

Eligible applicants include:

- Local and State governments.
- Federally recognized Tribes.
- Private nonprofit (PNP) organizations providing essential government services.
- Special districts.

Hazard Mitigation Assistance Criteria:

- Programs HMGP, Building Resilient Infrastructure and Communities (BRIC) and Flood Mitigation Assistance (FMA).
- Must have a Federal Emergency Management Agency (FEMA)-approved Local Hazard Mitigation Plan (LHMP); plans are valid for five years.
- PNPs are exempt from the LHMP requirement.
- 25 percent non-federal cost share (match) required.
- 36-month grant performance period.
- Must obtain environmental clearances (CEQA and NEPA).
- Projects must demonstrate cost-effectiveness.
- Projects must be a stand-alone solution to mitigate risk to life or property from a natural hazard.

How to Apply for HMA Funding at Cal OES

Visit the Cal OES [HMGP website](#) for funding opportunities resulting from presidentially declared major disasters.

Visit the Cal OES [pre-disaster mitigation \(PDM\)/FMA website](#) for information about the annual hazard mitigation funding opportunities.

For more detailed information on eligibility criteria, visit the [FEMA Hazard Mitigation Assistance Guidance website](#).

Funding Programs

Hazard Mitigation Grant Program (HMGP)

Purpose

HMGP funds development of local hazard mitigation plans and hazard mitigation measures to reduce the long-term risk of loss of life and property from future natural hazards and disasters.

Types of projects include:

- Hazard mitigation planning.
- Hazardous fuels reduction.
- Ignition resistant construction.
- Defensible space.
- Post-disaster code enforcement.
- Soil stabilization.
- Erosion control.
- Localized and non-localized flood risk reduction.
- Structure elevation.
- Critical facility generators.
- Dry flood proofing.
- Mitigation reconstruction.
- Structural and non-structural retrofitting of existing buildings.
- Property acquisition.

Funding Availability

HMGP funding is available following a presidential major disaster declaration. The amount of HMGP funding available to the applicant is based on the estimated total federal assistance that FEMA provides for disaster recovery under presidential major disaster declarations.

Terms/Dates

The application process begins approximately one month after the date of the major disaster declaration. Selected projects have a 36-month period of performance (POP).

Building Resilient Infrastructure and Communities (BRICs)

Purpose

BRIC implements a sustained pre-disaster natural hazard mitigation program to reduce overall risk to the population and structures from future hazard events, while also reducing reliance on federal funding in future disasters. Eligible subapplicants with projects that mitigate risk to public infrastructure, include innovative partnerships, mitigate risk to one or more lifelines, incorporate nature-based solutions, or incentivize adoption and enforcement of modern building codes are especially encouraged to apply.

Types of projects include:

- Hazard mitigation planning.
- Hazardous fuels reduction.
- Ignition resistant construction.
- Defensible space.
- Post-disaster code enforcement.
- Soil stabilization.
- Erosion control.
- Localized and non-localized flood risk reduction.
- Structure elevation.
- Critical facility generators.
- Dry flood proofing.
- Mitigation reconstruction.
- Structural and non-structural retrofitting of existing buildings.
- Property acquisition.

Funding Availability

BRIC provides funding on an annual basis.

Terms/Dates

The funding cycle for PDM begins with FEMA's release of the notice of funding opportunity (NOFO), typically mid-to-late summer, and subapplications are due to Cal OES in November. Please note that the application due date provided in the NOFO is for the State (Cal OES) to submit the overall funding request to FEMA. Selected projects have a 36-month POP, with potential for longer periods, if justified.

Flood Mitigation Assistance Program (FMA)

Purpose

FMA provides funding to reduce or eliminate the risk of flood damage to buildings insured under the National Flood Insurance Program.

Types of projects include:

- Mitigate severe repetitive loss and repetitive loss properties.
- Acquisition and demolition or relocation.
- Structure elevation.
- Localized flood control.
- Infrastructure protective measures.
- Floodwater storage and diversion.
- Stormwater management.
- Utility protective measures.

Funding Availability

FMA provides funding on an annual basis.

Terms/Dates

The funding cycle for PDM begins with FEMA's release of the NOFO, typically mid-to-late summer, and subapplications are due to OES in November. Selected projects have a 36-month POP.

2021 California Financing Coordinating Committee Funding Fair

Workshop Notes

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

California Department of Forestry and Fire Prevention (CAL FIRE) Grant Program

The California Department of Forestry and Fire Prevention (CAL FIRE) offers several grant opportunities, each with its own scope and funding priorities.

For detailed information on eligibility criteria, visit the CAL FIRE Grant Program website at <https://www.fire.ca.gov/grants/>. Assistance guidance is available.

Fire Prevention

Through the California Climate Investments (CCI) Fire Prevention Grant Program, CAL FIRE provides funding for local projects and activities that address the risk of wildfire and reduce wildfire potential to forested and forest adjacent communities. Funded activities include hazardous fuel reduction, fire prevention planning, and fire prevention education with an emphasis on improving public health and safety while reducing greenhouse gas emissions.

For more information on this program, email an inquiry to FPGrants@fire.ca.gov.

Forest Health

Through the CCI Forest Health Grant Program, CAL FIRE funds projects that proactively restore forest health to reduce greenhouse gases, protect upper watersheds where the state's water supply originates, promote the long-term storage of carbon in forest trees and soils, minimize the loss of forest carbon from large, intense wildfires, and further the goals of the California Global Warming Solutions Act of 2006 (Assembly Bill 32).

The emphasis of the Forest Health Program is to increase the carbon stored in living trees and protect forests, fish and wildlife habitats, native plant species, and water. This effort requires preventing epidemic tree mortality, protecting water quality in upper watersheds, and creating forests consisting of optimally spaced trees that are resilient to disturbances such as wildfire and tree mortality. Forests with these attributes will be able to store carbon for long time periods with a lower risk of loss to wildfire or insects and disease.

For more information about this program, email an inquiry to ForestHealth@fire.ca.gov.

Urban and Community Forestry

Through the Urban & Community Forestry Grant Program, CAL FIRE utilizes CCI funds to optimize the benefits of trees and related vegetation through multiple-objective projects as specified in the California Urban Forestry Act of 1978 (Public Resources Code 4799.06-4799.12). These projects further the goals of the California Global Warming Solutions Act of 2006 (Assembly Bill 32), result in a significant greenhouse gas benefit, and provide environmental services and cost-effective solutions to the needs of urban communities and local agencies. Co-benefits of the projects include increased water supply, clean air and water, reduced energy use, flood and storm water management, recreation, urban revitalization, improved public health, improved urban forest management, and producing useful products such as bio-fuel, clean energy, and high-quality wood.

For further information about this program, email john.melvin@fire.ca.gov.

Funding Programs

CalRecycle Loan Programs

Recycling Market Development Revolving Loan Program

Purpose

CalRecycle administers a Recycling Market Development Zone (RMDZ) Loan Program to encourage California-based recycling businesses located within California financing businesses that prevent, reduce, or recycle recovered waste materials through value-added processing or manufacturing. Facilities must be located within a CalRecycle-designated RMDZ and use postconsumer or secondary recovered waste feedstock generated in California.

- Available Funds: \$6,250,000 as of March 2, 2020.
- Interest Rate: 4.0 percent.
- For updates, email an inquiry to Loans@Calrecycle.ca.gov.

Eligible Applicants

All projects must be located in a CalRecycle-designated RMDZ, which can be determined by entering the project physical address into the [RMDZ Zone Search, Map, and Profiles](#) website. In the case of mobile operations, the primary business location for the project must be located within the RMDZ.

Eligible applicants include:

- Private, for-profit entities.
- Nonprofit organizations (except private schools).
- Local government entities:
 - Cities, counties, and cities and counties combined.
 - Regional or local sanitation agencies, waste agencies, and joint powers authority.

Funding

For more information about the RMDZ Loan Program, including eligible/ineligible project types, download the [RMDZ Eligibility Criteria](#).

Eligibility criteria includes:

- \$2 million or 75 percent of total project cost, whichever is less.
- A borrower and its related entities may receive more than one RMDZ loan but may not have more than \$3 million principal outstanding on all RMDZ loans.
- Term is up to 10 years when secured by business assets or up to 15 years when secured by real estate.
- Matching funds of at least 25 percent of the total project are required.
- Collateral is required.

Application

To view the application materials, visit the program's [Forms and Documents webpage](#). Before applying for a loan contact CalRecycle (see the "Questions" section below).

Questions

To learn more about the RMDZ program or apply for a loan, complete and submit [the contact form](#) or contact your local zone administrator, or CalRecycle's zone liaison for that area.

General information can also be obtained by calling 916-341-6199 or emailing LAMD@CalRecycle.ca.gov.

For answers to loan program-specific questions, email an inquiry to Loans@CalRecycle.ca.gov.

Greenhouse Gas Reduction (GHG) Loan Program

Purpose

The GHG Reduction Loan Program provides funds to support new or expanded organics infrastructure, such as composting and anaerobic digestion facilities, as well as for facilities that manufacture fiber, plastic, or glass waste materials into beneficial products. The purpose of this investment is to further the purposes of the California Global Warming Solutions Act (Assembly Bill 32), reduce methane

emissions from landfills and further GHG reductions in upstream resource management and manufacturing processes; benefit disadvantaged communities (DACs) by upgrading existing facilities and, where warranted, establishing new facilities that reduce GHG emissions; result in air and water quality improvements; and create jobs.

- Available Funds: \$2.5 million as of March 2, 2020.
- Interest Rate: 4.0 percent.
- For updates, email an inquiry to Loans@CalRecycle.ca.gov.

Funding

- \$2 million or 75 percent of total project cost, whichever is less.
- A borrower and its related entities may receive more than one GHG loan but may not have more than \$3 million principal outstanding on all GHG loans.
- Term is up to 10 years when secured by business assets or up to 15 years when secured by real estate.
- Matching funds of at least 25 percent of the total project are required.
- Collateral is required.

Application

To view the application materials, visit the program's [Forms and Documents webpage](#). Before applying for a loan, contact CalRecycle (see the "Questions" section below).

Questions

For answers to program-specific questions, complete and submit [the contact form](#) or send an email to Loans@CalRecycle.ca.gov.

Greenhouse Gas Reduction Grant Programs

CalRecycle established the Greenhouse Gas Reduction Grant Programs (listed below with web links) to provide financial incentives for capital investments in infrastructure for aerobic composting, anaerobic digestion, and recycling and manufacturing facilities that will reduce greenhouse gas emissions. A priority is to realize environmental and economic benefits in disadvantaged and low-income communities. These grants promote California infrastructure developments that

achieve greenhouse gas emission reductions by diverting more materials from landfills and producing beneficial products such as soil amendments, renewable fuels or recycled-content products.

The California Strategic Growth Council (SGC) works collaboratively with public agencies, communities, and stakeholders to achieve sustainability, equity, economic prosperity, and quality of life for all. SGC administers a suite of grant programs funded through California Climate Investments — a statewide initiative that puts billions of cap-and-trade dollars to work reducing greenhouse gas (GHG) emissions while providing a variety of other benefits. SGC's programs fund affordable housing and transportation investments, agricultural land easements, community-led development and infrastructure projects, climate-related research investments, and technical assistance to increase capacity of local communities to compete for climate funding.

California Strategic
Growth Council

California Strategic
Growth Council

SGC Funding Sources

CCI Grant Programs

Affordable Housing and Sustainable Communities Program

This program builds healthier communities and protects the environment by increasing the supply of affordable places to live near jobs, stores, transit, and other daily needs.

Transformative Climate Communities Program

This program empowers the communities most impacted by pollution to choose their own goals, strategies, and projects to reduce GHG emissions and local air pollution.

Sustainable Agricultural Lands Conservation Program

This program protects agricultural lands on the outskirts of cities and near residential neighborhoods from development.

Climate Change Research Program

This program invests in cross-cutting research investments that build community resilience, integrate land use and development considerations, and facilitate the transformation of California communities.

Climate Change Research Program

This program invests in cross-cutting research investments that build community resilience, integrate land use and development considerations, and facilitate the transformation of California communities.

Capacity Building and Technical Assistance Programs

These programs help create a more equitable playing field by increasing capacity in under-resourced communities to advance climate change mitigation, adaptation, and resilience.

SGC Eligibility Requirements

Inquire with one of the program contacts directly to determine applicant eligibility requirements. The following entities are eligible for one or more SGC funding program.

- Public agencies (including city, county, transit agency, school district).
- Nonprofit organizations.
- Joint powers authorities.
- Housing developers.
- Land trusts.
- Universities within California (private and public).
- Federally recognized Tribes.
- California State Indian Tribes listed on the Native American Heritage Commission's California Tribal Consultation List.

Funding Programs

Affordable Housing and Sustainable Communities (AHSC)

Purpose

Increasing the supply of affordable homes and transportation options near jobs, stores, schools, and other daily needs. AHSC reduces emissions from personal vehicle use by funding projects that make it easier for residents to get out of their cars and walk, bike, or take public transit. Funded by auction proceeds from California's cap-and-trade emissions-reduction program, AHSC is administered by the Strategic Growth Council and implemented by the California Department of Housing and Community Development.

Eligible Applicants

Usual applicants include housing developers, local jurisdictions, and transit agencies. See program guidelines for the full list of applicant types.

Eligible Projects

Projects typically include a combination of the following costs, with a requirement that at least 50 percent go to housing-related expenses:

- Affordable Housing Development: Loan funding for construction of affordable housing.
- Housing-Related Infrastructure: Grant funding for infrastructure required as a condition of approval for the affordable housing development (e.g. sewer, water, streets, electric).
- Sustainable Transportation Infrastructure: Grant funding for infrastructure that enables mode-shift (e.g., new transit vehicles, sidewalks, bike lanes).
- Transportation-Related Amenities: Grant funding for improvements that are publicly accessible and provide supportive amenities to pedestrians, cyclists and transit riders (i.e., bike parking, bus shelter, benches, street trees).
- Programs: Grant funding for programs that encourage residents to walk, bike, and use public transit.

Funding Availability

Varies round to round, depending on cap-and-trade auction proceeds. For the most recent round, \$550 million was available for AHSC projects.

Terms/Dates

Continuously appropriated through cap-and-trade, with funding until 2030. Annually, a notice of funding availability is released in November. Applications are due in February, and awards are made in June.

Program Contact

Ryan Silber
ahsc@sgc.ca.gov

Transformative Climate Communities (TCC)

Purpose

TCC empowers the communities most impacted by pollution to choose their own goals, strategies, and projects to enact transformational change. TCC projects catalyze collective impact through a combination of community-driven climate projects in a single neighborhood. Projects must reduce GHG emissions significantly over time, leverage additional funding sources, and provide additional health, environmental, and economic benefits.

Eligible Applicants

A diverse range of community, business, and local government stakeholders must form a collaborative stakeholder structure to develop a shared vision of transformation for their community. This may include community-based organizations, local governments, nonprofit organizations, philanthropic organizations and foundations, faith-based organizations, coalitions or associations of nonprofits, community development finance institutions, community development corporations, joint powers authorities, and Tribal governments.

Eligible Projects

Project examples include:

- Affordable and sustainable housing developments.
- Transit stations and facilities.
- Bicycle and car share programs.
- Residential weatherization and solar projects.
- Water-energy efficiency installations.
- Urban greening projects.
- Bicycle and pedestrian facilities.
- Low-carbon transit vehicles and clean vehicle rebates.
- Health and well-being projects.

Funding Availability

Annually appropriated by the legislature, historically from the GHG Reduction Fund.

Terms/Dates

Schedule for applications and awards are dependent on the annual appropriation.

Program Contact

Saharnaz Mirzazad

tccpubliccomments@sgc.ca.gov

Sustainable Agricultural Lands Conservation (SALC)

Purpose

The protect agricultural lands that are at risk of conversion to other uses. Studies show that farmland produces 70 times less GHG emissions than urbanized land, and protecting farmland provides an opportunity to capture carbon in the land base. SALC grants simultaneously support California's need for agricultural conservation, economic growth, and sustainable development. Both planning grants and implementation grants are available through the program.

Eligible Applicants

Planning Grants

- Cities.
- Counties.
- Resource conservation districts.
- Special districts.
- Local agency formation commissions.

Agricultural Conservation Easement Grants

- Cities.
- Counties.
- Resource conservation districts.
- Nonprofit organizations.
- Regional park or open-space Districts or authorities.

Eligible Projects

Planning grants support the development of local and regional land use policies and economic development strategies to protect critical agricultural land. The program funds strategies related to establishing and implementing goals, policies, and objectives to support the economic viability of the local agricultural sector. It also supports planning processes to identify and designate priority lands for conservation and development.

Agricultural Conservation Easement grants are used to permanently protect croplands and rangelands that are at-risk of conversion to sprawl development. Agricultural conservation easements are deed restrictions that landowners voluntarily place on their property to preserve the land's agricultural uses.

Funding Availability

Varies round to round, depending on cap-and-trade auction proceeds.

Terms/Dates

Continuously appropriated through cap-and-trade, with funding until 2030.

Program Contact

Virginia Jameson

salcp@conservation.ca.gov

Climate Change Research (CCR)

Purpose

To invest in actionable, partnership-based research to inform climate actions that directly benefit California communities for all. CCR makes grants to research projects focused on advancing tangible outcomes and filling critical research gaps to address the State's climate change goals — including both reducing GHGs and building resilience to the impacts of climate change. CCR requires funded research projects to incorporate meaningful engagement with communities and stakeholders in order to successfully translate research into action.

Eligible Applicants

- University of California.
- California State University.
- Federally funded national laboratories (in California).
- Private colleges and universities
- Nonprofit research institutions.

Eligible Projects

CCR funds research projects that provide information, tools, and resources to support climate action in vulnerable communities and ecosystems in cross-cutting and holistic ways. This novel research approach often involves projects that aim to reduce greenhouse gas emissions while also addressing community needs and improving ecosystem and economic outcomes around California. Successful CCR-funded projects fill knowledge gaps that inform effective and equitable interventions that both advance the implementation of California's climate policies and result in real benefits to disadvantaged and climate-vulnerable California communities.

Funding Availability

Annually appropriated by the legislature, historically from the Greenhouse Gas Reduction Fund.

Terms/Dates

Schedule for applications and awards are dependent on the annual appropriation.

CADWR

@CA_DWR

calwater

cadepartmentofwaterresources

DWR Funding Sources

General Obligation Bonds

Proposition 1 – The Water Quality, Supply, and Infrastructure Improvement Act of 2014.

Proposition 50 – The Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002

Proposition 84 – Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006.

Proposition 68 – California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access for All Act of 2018.

General Fund – Budget enacted State fund.

DWR Eligibility Requirements

Contact the programs to determine applicant eligibility requirements. For most programs, the following applicants are eligible:

- Groundwater sustainability agencies (GSAs), member agencies of a GSA, and those entities with an approved alternative to a groundwater sustainability plan.
- Public agencies (e.g., city, county, water/drainage district).
- Disadvantaged communities (DACs)/underrepresented communities.
- Nonprofit organizations.
- Joint powers authorities.
- Public utilities.
- Federally recognized Indian Tribes.
- California State Indian Tribes listed on the Native American Heritage Commission's California Tribal Consultation List.
- Mutual water companies.
- Universities (some programs).

How to Apply for Funding at DWR

Visit <https://water.ca.gov/Work-with-us/Grants-and-loans> to learn more about open solicitations, public comment opportunities, program contacts, and application timing. **Contact the program representative directly to learn more about how to apply.**

To submit applications for some programs, use the Grants Review and Tracking System at <https://water.ca.gov/Work-With-Us/Grants-And-Loans/GRanTS>.

Integrated Regional Water Management (IRWM)

To apply for IRWM grants, applicants must contact their IRWM region contact person listed in the IRWM Region Contact List at <https://water.ca.gov/Work-With-Us/Grants-And-Loans/IRWM-Grant-Programs>.

Purpose

The IRWM Proposition 1 Grant Program provides funds for development and update of IRWM plan, ensuring involvement of DACs, and implementation of projects in IRWM plans. Goals of the program include (a) help build/update water infrastructure systems that adapt to climate change, including sea level rise; (b) provide incentives for water agencies throughout each watershed to collaborate in managing the region's water resources and setting regional priorities for water infrastructure; and (c) improve regional water self-reliance — thereby reducing reliance on the Sacramento-San Joaquin Delta.

IRWM Implementation Grant Program

The IRWM Implementation Grant Program provides funding for implementation projects that meet the intent of Proposition 1, Chapter 7.

Approximately \$459 million in grant funding was made available for grant solicitations with at least \$102 million being made available for DAC and Tribal involvement (DACTI) activities and implementation projects that provide direct benefits to DACs. To date, approximately \$267 million has been awarded for grant awards: \$4.2 million for IRWM plan developments and updates, \$51.7 million for DACTI activities, and \$211.1 million in Round 1 grant solicitation for project implementations, leaving approximately \$192 million to be awarded in Round 2 Implementation grant solicitation.

Here is a status of recent grants:

- IRWM Planning Grants – Program closed and completed February 2020.
- DACTI Program – In 2016–2017, \$51.7 million was awarded to 12 funding areas for the purpose of ensuring involvement of DACs, economically distressed areas, or underrepresented communities; and the program is currently underway.

- IRWM Implementation Grants – Round 1 Solicitation: Completed and \$211 million has been awarded to 42 IRWM regions. Agreement Execution will be completed by spring 2021.

Potential applicants are highly encouraged to contact their respective IRWM region contact person listed in the IRWM Region Contact List at the bottom of the following link (under the "+IRWM Region Contacts" accordion)

<https://water.ca.gov/Work-With-Us/Grants-And-Loans/IRWM-Grant-Programs>.

Types of Projects

Eligible projects must be included in an adopted IRWM plan (Water Code Section 79740) that is consistent with the most recent IRWM plan standards. Eligible project types are dependent on the proposition language and can be variable in different solicitations. For Proposition 1 – Round 1 solicitation, specific details on eligible project types are provided in Section II.C of the 2019 IRWM Guidelines.

Funding Availability

Approximately \$192 million will be made available in grants for IRWM projects in Round 2. Cost share of 50 percent is required, unless waived or reduced for a project that benefits a disadvantaged community.

Details are available at <https://water.ca.gov/Work-With-Us/Grants-And-Loans/IRWM-Grant-Programs/Proposition-1/Implementation-Grants>.

Terms/Dates

IRWM Implementation Grants – Round 2 Solicitation (Tentative Schedule): Round 2 Implementation grant solicitation is tentatively scheduled to be open in late 2021 and awards to be announced in 2022–2023. Only one application is accepted per IRWM Region. Funding is awarded by "Funding Area" as defined in Proposition 1.

Sustainable Groundwater Management Implementation Grant Program

Purpose

Competitive grants to support implementation of local and regional groundwater projects required to support sustainable groundwater management.

Eligible applicants will be GSAs; member agencies of GSAs; an entity that represents a GSA(s) which can include public agencies, nonprofit organizations, public utilities, federally recognized Indian Tribes, State Indian Tribes listed on the Native American Heritage Commission's Tribal Consultation list, or mutual water companies; and agencies with an approved alternative plan.

Types of Projects

Details of project eligibility and preferences are listed in the Sustainable Groundwater Management (SGM) Grant Program's Proposition 68 2019 Guidelines (2019 Guidelines) and the SGM Grant Program's Proposition 68 Implementation Proposal Solicitation Package (2020 PSP). However, as a general guidance, eligible projects may include activities or tasks that include the development of groundwater recharge projects with surface water, stormwater, recycled water, and other conjunctive use projects, or projects that prevent or clean up contamination of groundwater that serves as a source of drinking water (Public Resources Code Section 80146[a]). Other eligible project types are projects and programs that support water supply reliability, water conservation, and water use efficiency and water banking, exchange, and reclamation.

Funding Availability

Proposition 68: \$88 million.

- \$26 million planned in Round 1 for critically overdrafted basins.
- \$62 million in Round 2 for medium- or high-priority basins.

Cost Share: 25 percent.

Minimum Award: \$2 million.

Terms/Dates

Round 1 Solicitation closed in January 2021, final awards expected to be \$26 million in May 2021 with grant terms summer 2021 through June 2024. Round 2 is expected to be advertised in spring/summer 2022 and awarded fall 2022.

Flood Control Subventions Program (FCSP)

Purpose

DWR and the Central Valley Flood Protection Board (CVFPB) provide financial assistance to local agencies cooperating in the construction of federally authorized flood control projects. The CVFPB is responsible for the State's financial assistance share for major U.S. Army Corps of Engineers' State Plan of Flood Control projects in the Central Valley, and DWR is responsible for disbursing funds for all other projects authorized by the State.

Types of Projects

Federally authorized projects that are not part of the State Plan of Flood Control are eligible for FCSP financial assistance. Projects are typically approved by the State Legislature and specifically cited in the California Water Code.

Funding Availability

Proposition 84: \$21 million.

Dependent on the project-specific authorization in the California Water Code.

Terms/Dates

Commitments are restricted to legislatively approved projects. Projects receive reimbursement of State cost share as approved by the Legislature for the specific project.

Claim submittals accepted on a continuous basis and are generally paid on a first-come, first-served basis, based on available State funding.

Program Contact

Mehdi Mizani
916-480-5351

Central Valley Tributaries Program

Purpose

To help fund flood management projects that enhance water quality and ecosystems of rivers and streams tributary to the Sacramento-San Joaquin Delta.

Types of Projects

Projects must be in the Central Valley and within or adjacent to the systemwide planning area. Projects in the Sacramento-San Joaquin Delta are excluded.

Funding Availability

Proposition 1: \$25 million left to award.

Unless reduced or waived for a DAC, 50 percent cost share required.

No maximum award. Award amounts are determined on a case-by-case basis.

Terms/Dates

Guidelines and proposal solicitation package will be announced when offered. New solicitation in fall 2021.

Program Contact

Floodplain Management, Protection, and Risk Awareness Program

Purpose

The Floodplain Management, Protection and Risk Awareness (FMPRA) Grant Program supports local agency efforts to prepare for flooding by providing financial assistance for flood risk reduction activities related to stormwater flooding, mudslides, and flash floods. The program supports both the Public Safety Initiative announced by Governor Brown's Administration in February 2017 and the Headwaters to Floodplains Flood Safety Partnership Program.

Types of Projects

Details of the project eligibility and preferences are available in the Program Draft Guidelines and Proposal Solicitation Package on the [Program webpage](#). As general guidance, funding will be available to support both implementation projects, as well as planning and monitoring projects that will lead to the future implementation of projects that will reduce flash flooding, mudslides, or stormwater flooding.

Funding Availability

Proposition 68: \$25 million

- \$22.5 million planned for implementation projects
- \$2.5 million planned for planning and monitoring projects

Cost Share: 25 percent.

Minimum Award: Dependent upon the number of applications received.

Terms/Dates

The Draft Program Guidelines and PSP 60-day public comment period closed on February 22, 2021. The program is scheduled to release the final Guidelines and PSP in spring 2021. The solicitation period will be opened following the release of these documents. Project selection and award is scheduled for winter 2021. The Proposition 68 funding is available and must be used in awarded contracts through June 2024.

Water Use Efficiency CalConserve Revolving Fund Loan Program

Purpose

This program provides loans to local agencies to provide low-interest loans to customers for water use efficiency upgrades and for on-site improvements to repair or replace leaking pipes. Loan recipient agencies would then offer customer low-interest or no-interest, on-bill financing. On-bill financing would remove first-cost barriers to efficiency upgrades.

Types of Projects

On-site improvements for water use efficiency or to repair or replace leaky pipes.

Funding Availability

Proposition 1: \$7 million in funds remaining.

- \$2 million total for water-use efficiency upgrades.
- \$5 million total for leak detection and repairs.
- A loan cap of \$3 million per agency.

Unless reduced or waived for a DAC, 50 percent cost share required.

Terms/Dates

Loan awards on a continuous first-come, first-served basis, based on available State funding.

Program Contact

<https://water.ca.gov/Work-With-Us/Grants-And-Loans/CalConserve-Water-Use-Efficiency-Loan-Program>

***Safe Drinking Water – Contaminant Removal Technologies –
Ultraviolet and Ozone Treatment***

Purpose

Proposition 50 Chapter 6c to provide grant funds for projects using ultra-violet (UV) or ozone disinfection technologies.

Types of Projects

Drinking water disinfecting projects using UV technology and ozone treatment. Eligible applicants are public water systems under the regulatory jurisdiction of the State Water Resource Control Board.

Funding Availability

Proposition 50: \$5 million in funds remaining in program, up to \$2 million in funds for 2021 activities.

Minimum grant is \$50,000. Up to \$5 million per grant, reimbursement format.

Terms/Dates

Concept presented to DWR prior to full application.

Grant awards on a continuous first-come, first-served basis, based on available State funding.

Program Contact

Jeremy Callihan

916-653-4763

Jeremy.Callihan@water.ca.gov

***Safe Drinking Water – Contaminant Removal Technologies –
Pilot and Demonstration Projects***

Purpose

Proposition 50 Chapter 6b to provide grant funds to test new technologies in California for the removal of specific categories of contaminants.

Types of Projects

Contaminant treatment or removal technology pilot and demonstration studies. Eligible applicants are public water systems under the regulatory jurisdiction of the State Water Resource Control Board.

Funding Availability

Proposition 50: \$5 million in funds remaining in program, up to \$3 million in funds for 2021 activities

Minimum grant is \$50,000. Up to \$5 million per grant, reimbursement format

Terms/Dates

Concept presented to DWR prior to full application.

Grant awards on a continuous first-come, first-served basis, based on available State funding.

Program Contact

Jeremy Callihan

916-653-4763

Jeremy.Callihan@water.ca.gov

Small Community Drought Relief Program (SGM) General Emergency Drought 2021 Fund – \$200 million

Purpose

The Small Community Drought Relief Program assists communities that are not served by an urban water supplier and have at least 3,000 connections or provide more than 3,000 acre-feet of drinking water annually. This program is one of several drought funding programs available through the State.

Types of Projects

Emergency drought grants support implementation of a range of projects including emergency water system repairs, infrastructure (such as new wells and water storage tanks), and improvements to intakes and distribution systems.

Eligible projects must be designed to benefit small communities located in counties under Governor Newsom's drought emergency proclamations. Small communities impacted by the drought are encouraged to apply as soon as possible and can submit applications or questions to DWR at SmallCommunityDrought@water.ca.gov.

This new program's focus on the emergency and interim needs of water systems complements ongoing efforts by DWR and the California State Water Resources Control Board to (State Water Board) partner with communities on sustainable drinking water solutions that will improve their resiliency to drought and other climate change-induced conditions. For example, since 2019, the State Water Board's Safe and Affordable Funding for Equity and Resilience (SAFER) program has provided financial and technical assistance to implement long-term solutions for safe, clean, affordable drinking water access for 148 communities. Going forward, the State Water Board also will administer \$1.3 billion for drinking water and wastewater projects and \$85 million for groundwater cleanup and water recycling using funding allocated in this year's State budget. At its August 18, 2021, board meeting, the State Water Board authorized the first tranche of funding from the State budget for drinking water and wastewater projects for small, disadvantaged communities and also review proposals within its draft 2021–2022 Fund Expenditure Plan on how best to invest \$130 million of drinking water funding from the Safe and Affordable Drinking Water Fund during this fiscal year.

Funding Availability

General Fund Fiscal Year 2021–2022: \$200 million.

Terms/Dates

Advertised in summer 2021, awarding will begin in fall 2021. Funding will be awarded on a first-come, first-serve basis.

<https://water.ca.gov/Work-With-Us/Grants-And-Loans>

Sustainable Groundwater Management (SGM) General Emergency Drought 2021 Fund for Critically Overdrafted (COD) Groundwater Basins

Purpose

Emergency drought grants to support implementation of local and regional groundwater projects required to support sustainable groundwater management. Drought funding for COD basins will be awarded on a non-competitive basis. These funds will be awarded and under contract by end of calendar year 2021.

Applicants will be GSAs, a member agency of a GSA, or an agency with an approved alternative to a groundwater sustainability plan. Through emergency drought funding, \$60 million in State general funds has been made available exclusively for COD basins with non-competitive grants.

Types of Projects

Eligible projects will be those related to the development and implementation of groundwater sustainability plans (GSPs) or approved alternatives to a GSP. Eligible projects include filling data gaps, modifying projects and management actions, updating of the GSPs, addressing comments received by DWR, and implementation projects as outlined within the GSPs or approved alternatives.

Funding Availability

General Fund Fiscal Year 2021–2022: \$60 million.

Cost Share: 25 percent.

Terms/Dates

Advertising is expected in fall 2021, with awarding by the end of 2021. Funding will be awarded on a first-come, first-serve basis.

Clean Water State Revolving Fund (CWSRF) Program

Type

Loan/Principal Forgiveness

Purpose

This program provides financing for eligible projects to restore and maintain water quality in the state.

Eligibility Requirements

Eligible applicants include cities, counties, districts, joint power authorities, State agencies, nonprofit organizations, private entities (select categories and sources), and Tribes.

CEQA Plus

CEQA documents must meet all State and federal environmental review requirements.

CEQA documents must have been adopted less than five years before the accepted date of the financing agreement. If the CEQA documents is more than five years old, the applicant must re-evaluate the project's environmental conditions in an updated environmental document.

Eligible Uses

Funding for (a) wastewater and water recycling projects: wastewater treatment, local sewers, sewer interceptors, water reclamation facilities; and (b) nonpoint source (NPS) projects identified in California's NPS plan, estuary projects, stormwater reduction, and treatment facilities.

Ineligible Uses

Operation and maintenance costs.

Funding Limits

No minimum or maximum per project funding limits. The Program has established a yearly loan funding target. Yearly funding will range between 90 and 125 percent of the \$586 million target. A project must be on the fundable list to receive financing. Placement of an application on the fundable list does not

guarantee financing. A financing agreement will be executed for a project on the fundable list only if the application meets all applicable eligibility requirements. The State Water Board will sort and rank projects from highest priority score to lowest priority score for potential placement on the fundable list.

Given the ongoing high demand on the CWSRF though, the State Water Board will not be able to fund all the projects currently requesting funding in State fiscal year 2020–2021. Applicants whose projects are not on the fundable list are encouraged to evaluate the CWSRF's finances and competing demands on the program as described in this intended use plan (IUP) and any updates during the year and evaluate all viable, alternative financing options for their projects considering any deadlines they must meet.

Terms/Dates

Applications accepted continuously. The application for readiness scoring ended on December 31, 2020. The schedule for intended use plan development for fiscal year 2021–2022 was:

- June 15, 2021, State Water Board adoption of fiscal year 2021–2022 IUP including fundable project list.
- IUP Implementation July 1, 2021.

Small Community Wastewater: Small Community Grant (SCG) Fund

Type

Grant/Loan

Purpose

The SCG fund helps finance communities with the most need, helping those that cannot afford a loan or similar financing to move forward with water quality improvements.

Eligibility Requirements

Eligible applicants include public agencies, Section 501(c)(3) nonprofit organizations, federally recognized Tribes and State Tribes that are small DACs: population less than 20,000, and median household income (MHI) is less than 80 percent of the Statewide MHI based on latest U.S. Census data.

CEQA Plus

CEQA documents must meet all State and federal environmental review requirements.

CEQA documents must have been adopted less than five years before the accepted date of the financing agreement. If the CEQA documents are more than five years old, the applicant must re-evaluate the project's environmental conditions in an updated environmental document.

Eligible Uses

For Planning projects, the maximum grant amount is \$500,000. The planning project can cover costs for engineering reports, public outreach, environmental documents, design, rate studies/Proposition 218-related work, income surveys, and sewer system evaluations.

For construction projects, the maximum grant amount is \$6 million. For consolidation projects, the maximum grant amount is \$10 million. Severely DACs (MHI is less than 60 percent of the Statewide MHI based on latest U.S. Census data) are eligible for 100 percent grant. DACs (MHI less than 80 percent of the Statewide MHI based on latest U.S. Census data) are eligible for 75 percent grants and 25 percent loans. For DACs, wastewater rates need to be greater than or equal to 1.5 percent of their MHI. If the community's wastewater rates are greater than or equal to 4 percent of their MHI and their MHI is less than 100 percent of the Statewide MHI based on latest U.S. Census data, they are eligible for 50 percent grants and 50 percent loans. The maximum cost per household per project is \$30,000.

For septic-to-sewer and regionalization projects, the maximum grant amount is \$10 million. Severely disadvantaged communities (SDACs) (MHI is less than 60 percent of the Statewide MHI based on latest U.S. Census data) are eligible for 100 percent grants. DACs (MHI less than 80 percent of the Statewide MHI based on latest U.S. Census data) are eligible for 75 percent grants and 25 percent loans. For DACs, wastewater rates need to be greater than or equal to 1.5 percent of their MHI. If the community's wastewater rates are greater than or equal to 4 percent of their MHI and their MHI is less than 100 percent of the Statewide MHI based on latest U.S. Census data, they are eligible for 50 percent grants and 50 percent loans. The maximum cost per household per project is \$75,000.

Ineligible Uses

Operation and maintenance costs.

Funding Limits

For fiscal year 2020–2021, approximately \$111 million is available. Applications are not scored and ranked. All new SDAC and DAC applicants will be added automatically to the fundable list. Projects may be funded at any time provided they submit a complete application and meet eligibility requirements.

Terms/Dates

Because of limited grant/principal forgiveness (PF) availability, the State Water Resources Control Board will prioritize grant/PF for small community wastewater projects. Public health projects, projects that address violations of waste discharge requirements and National Pollutant Discharge Elimination System (NPDES) permits, projects that connect previously unsewered areas or join communities to regionalize wastewater treatment works, and other projects identified as priority by the Regional Water Quality Control Boards are considered priority for grant/PF funding (priority projects).

Water Recycling Funding Program (WRFP)

Type

Grant/Loan

Purpose

This program promotes use of treated municipal wastewater to augment or offset State/local fresh water supplies.

Eligibility Requirements

Eligible applicants include public agencies, Section 501(c)(3) nonprofit organizations, federally recognized Tribes and State Tribes that, mutual water companies.

CEQA Plus

CEQA documents must meet all State and federal environmental review requirements.

CEQA documents must have been adopted less than five years before the accepted date of the financing agreement. If the CEQA documents are more than five years old, the applicant must re-evaluate the project's environmental conditions in an updated environmental document.

Eligible Uses

Eligible projects include recycled water treatment; recycled water storage, distribution, and pumping; groundwater recharge; indirect potable reuse; and surface water augmentation.

Ineligible Uses

Operation and maintenance costs.

Funding Limits

For fiscal year 2021–2022, approximately \$22 million in grant funds and approximately \$3 million in loan funds is available for WRFP construction projects. The State Water Board also has authority to commit approximately \$20.1 million in planning grants. The projects on the fundable list that appear to be eligible for these funds are requesting in excess of \$66 million.

Therefore, DFA anticipates that all available WRFP grant and loan funds can and will be committed by June 30, 2022, with a combination of eligible water recycling projects on the fundable list.

- A planning grant can cover 50 percent of the eligible planning costs up to a maximum grant amount of \$150,000.
- A construction grant can cover 35 percent of construction costs up to a maximum grant amount of \$5 million.
- A construction loan will cover 50 percent of the total eligible project cost.

A project must be on the fundable list to receive financing. Placement of an application on the fundable list does not guarantee financing. A financing agreement will be executed for a project on the fundable list only if the application meets all applicable eligibility requirements. The State Water Board will sort and rank projects from highest priority score to lowest priority score for potential placement on the fundable list.

Terms/Dates

Applications accepted continuously. The application for readiness scoring ended on December 31, 2020. The schedule for IUP development for fiscal year 2021–2022 was:

- June 15, 2021, State Water Board adoption of fiscal year 2021–2022 IUP including fundable project list.
- IUP Implementation July 1, 2021.

Groundwater: Site Cleanup Subaccount Program (SCAP)

Type

Grant

Purpose

SCAP issues grants for projects that remediate the harm or threat of harm to human health, safety, or the environment caused by existing or threatened surface water or groundwater contamination.

Eligibility Requirements

Applicants with eligible projects.

Eligible Uses

Eligible projects include remediating the harm or threat of harm to human health, safety, and the environment from surface water or groundwater contamination; human-made contaminants (i.e., nitrates, PCE, TCE, DCE, DCA, pesticides, perchlorate, MTBE, hexavalent chromium.); a regulatory agency that issues a directive (unless this is infeasible); a responsible party that lacks financial resources. Projects may include site characterization, source identification, or implementation of cleanup.

Priorities

The priorities are significant threat to human health or the environment; disadvantaged or small community impact; cost and environmental benefit of project; lack of availability of other sources of funds; other State Water Board considerations.

Funding Limits

Annual appropriation of \$19.5 million.

Terms/Dates

No deadlines; continuous pre-application process.

Program Contact

Email: gwquality.funding@waterboards.ca.gov

Subject Line: SCAP

Website

https://www.waterboards.ca.gov/water_issues/programs/grants_loans/scap/

Proposition 1: Groundwater Grant Program

Type

Grant

Purpose

This program provides planning and implementation grants to prevent and cleanup contamination of groundwater that serves or has served as a source of drinking water.

Eligibility Requirements

Eligible applicants include public agencies, Section 501(c)(3) nonprofit organizations, federally recognized Tribes and State Tribes, and mutual water companies.

CEQA

CEQA documents must have been adopted less than five years before the excepted date of the financing agreement. If the CEQA documents is more than five years old, the applicant must re-evaluate the project's environmental conditions in an updated environmental document.

Eligible Uses

Eligible projects must prevent or clean-up contamination of groundwater that serves or has served as a source of drinking water including wellhead treatment, installation of extraction wells combined with treatment systems, centralized groundwater treatment systems, groundwater recharge to prevent/reduce contamination of wells, and groundwater injection to prevent seawater intrusion.

Funding Limits

Groundwater grant funding for eligible drinking water treatment projects serving DACs will be issued per the evaluation criteria, funding maximums, and funding decision process set forth in the most current version of the DWSRF Intended Use Plan.

The applicant is required to provide a minimum local cost share "match funds" of 50 percent of the total project cost. Other State funds cannot be used for the required match funds. Match funds may include federal grant and loans, local and private funding, donated or "in-kind" services. Repayable financing through the

Drinking Water State Revolving Fund (DWSRF) or CWSRF programs, or other State or federally sponsored loan program, may be used for match. The match requirement for a DAC or economically distressed area may be reduced or waived.

Terms/Dates

Third Round – Invitation for Full Proposal opens November 2021. DFA will contact applicants based on submitted Concept proposals.

Program Contact

Email: gwquality.funding@waterboards.ca.gov

Subject Line: Proposition 1 Groundwater Grant Program

Website

https://www.waterboards.ca.gov/water_issues/programs/grants_loans/proposition1/groundwater_sustainability.html

Proposition 68: Groundwater Treatment and Remediation Grant Program

Type

Grant

Purpose

This program provides grants for treatment and remediation activities that prevent or reduce the contamination of groundwater that serves as a source of drinking water.

Eligibility Requirements

Eligible applicants include public agencies, nonprofit organizations, public utilities, federally recognized Indian Tribes, California Native American Tribes, and mutual water companies.

Eligible Uses

Project must address contamination in groundwater that serves as a source of drinking water.

Costs eligible for funding generally include required operations and maintenance (O&M) costs for existing treatment and remediation systems that prevent or reduce contamination of groundwater that serves as a source of drinking water, but are not limited to permitting, monitoring, reporting, utility bills, chemicals, replacement or changeout of equipment, or plant operator. The types of treatment systems that must qualify for O&M funding include wellhead treatment, extraction and treatment systems, centralized treatment systems, and source area cleanup.

It is expected that proposals will consist primarily of requests to fund O&M at existing facilities. New infrastructure projects will generally be directed to the Proposition 1 Groundwater Grant Program, with one potential exception: project proposals that include relatively small-scale capital improvements that will reduce long-term O&M costs. These capital improvements will be considered for funding if an applicant can demonstrate that the resulting reduction in O&M costs over the useful life of the improvement exceeds the proposed capital cost.

Ineligible Uses

Funds cannot be used for projects not resulting from a discharge of waste; acquisition of land through eminent domain; to pay any share of the costs of remediation recovered from parties responsible for the contamination of groundwater storage aquifer (funds may be used to pay costs that cannot be recovered from responsible parties); overhead or costs not directly to the project; or State or federal taxes.

Funding Limits

After completing two solicitations, approximately \$28 million remains uncommitted. The State Water Board adopted a resolution making these funds available for DAC drinking water projects that treat groundwater for direct potable reuse, without necessarily remediating the aquifer. DAC drinking water projects do not need to apply directly to the Proposition 68 Groundwater Program. Division staff will consult internally to direct Proposition 68 Groundwater funds to identified eligible projects.

There is a minimum grant amount of \$500,000 and a maximum grant amount of \$5 million per project and a maximum grant amount of \$20 million per applicant for O&M projects, but additional funding for capital improvements to existing facilities will reduce long-term O&M costs may be provided as part of an award. Funding for such improvements has a maximum grant amount of \$2 million per project and \$5 million per applicant, which may be in addition to funding provided for O&M activities.

The applicant is required to provide a minimum local cost share “match funds” of 50 percent of the total project cost. Match funds may include federal grant and loans, local and private funding, donated or in-kind services. Repayable financing through the DWSRF or CWSRF programs, or other State or federally sponsored loan program, may be used for match. The match requirement for a DAC or economically distressed area may be reduced or waived.

Terms/Dates

Another solicitation is not planned, but eligible projects that serve a SDAC can be funded on a continuous basis.

Program Contact

Email: gwquality.funding@waterboards.ca.gov

Subject Line: Proposition 68 Groundwater Treatment and Remediation Grant Program

Website

https://www.waterboards.ca.gov/water_issues/programs/grants_loans/propositions/prop68.html

Proposition 1: Storm Water Grant Program (SWGP)

Type

Grant

Purpose

This program provides grants for multi-benefit stormwater management projects.

Eligibility Requirements

Eligible applicants include public agencies, nonprofit organizations, public utilities, federally recognized Indian Tribes, California Native American Tribes, and mutual water companies.

Eligible Uses

Implementation grants will only be awarded to projects that are included and implemented in an adopted IRWM plan, are included in a stormwater resource plan, respond to climate change, and contribute to regional water security. Multi-benefit stormwater management projects may include green infrastructure, rainwater and stormwater capture projects, and stormwater treatment facilities.

Ineligible Uses

Ineligible projects include projects that must seek eminent domain as part of their project implementation timeline; projects that do not meet the requirements of Proposition 1 SWGP guidelines, the Storm Water Resource Plan Guidelines, Water Code, and Proposition 1, or projects that consist of only education and outreach activities.

Funding Limits

No funding is available at this time.

The minimum grant amount is \$250,000 and the maximum grant amount is \$10 million. The grant maximum will be applied on a per applicant basis across both Round 1 and Round 2 combined.

The applicant is required to provide a minimum local funding match of 50 percent of the total project cost. Other State funds cannot be used for the required match. The funding match may include federal grants and loans, local and private funding, donated or in-kind services. Repayable financing through the DWSRF or CWSRF

programs, or other State or federally sponsored loan program, may be used for match. The match requirement for a DAC or economically distressed area may be reduced.

Terms/Dates

No solicitations at this time.

Drinking Water State Revolving Fund (DWSRF)

Type

Low-Interest Loans and Grants

Purpose

This program provides low-interest loans and grants for planning and construction projects that support public water systems in meeting compliance with drinking water standards.

Eligibility Requirements

Eligible applicants include community water systems, nonprofit, and noncommunity water systems.

The following types of facilities may be determined to be a small SDAC with financial hardship: on-transient noncommunity water systems serving facilities such as a public school, a not-for profit private school, a daycare, a labor camp, and elder care facility or a health care facility, that are owned by a public agency or not-for profit water company.

Eligible Uses

Eligible projects include planning/design and construction of drinking water infrastructure projects including: consolidation; water meters; water storage; treatment systems; replacement of aged water transmission or distribution mains, groundwater wells, or other infrastructure; private laterals; interconnections; pipeline extensions.

Funding Limits

The maximum grant for a community is based on all funding the community receives in a five-year period. This includes planning, technical assistance, and construction funding for all DWSRF projects for the community. DACs (MHI is less than 80 percent of the Statewide MHI based on latest U.S. Census data) can receive up to 100 percent PT for eligible Category A-C projects.

The maximum amount of principal forgiveness, grant, or a combination thereof will not exceed \$60,000 per service connection for Category A-C projects and \$45,000 per service connection for Category D-F projects.

California State Water Resources Control Board

A consolidation incentive is available to public water systems who consolidate a small disadvantage community. A consolidation project will receive terms based on small DAC eligibility. The remaining public water system can receive up to \$10 million on zero-percent interest financing.

Terms/Dates

No deadlines; continuous pre-application process.

***Safe and Affordable Funding for Equity and Resilience Funding Program
and Safe and Affordable Drinking Water Fund (Senate Bill 200)***

Type

Grant

Purpose

This program provides a set of tools, funding sources, and regulatory authorities designed to ensure that one million Californians who currently lack safe drinking water receive safe and affordable drinking water as quickly as possible. The fund will provide \$130 million per year.

Eligibility Requirements

Eligible recipients include public agencies, nonprofit organizations, public utilities, mutual water companies, California Native American Tribes, administrators, and groundwater sustainability agencies.

Eligible Uses

Eligible projects may be used for various types of assistance for DACs, voluntary participants, and public water systems with demonstrated failure or risk of failure, including projects that:

- Provide interim access to safe water sources.
- Contract or provide a grant to an administrator to address or prevent failure to provide safe and affordable drinking water.
- Improve water delivery infrastructure.
- Provide technical assistance to DACs.
- Consolidate systems.
- Fund operation and maintenance for disadvantaged and low-income communities.

Terms/Dates

No deadlines; continuous application process.

Drinking Water for Schools Grant Program (DWFS)

Type

Grant

Purpose

A total of \$6.8 million has been authorized for the DWFS Grant Program (Round 2). This program was initially allocated and has awarded \$9.5 million in grants funds to school districts to improve access to, and the quality of, drinking water in public schools (Round 1). An additional \$6.8 million has been authorized for the DWFS Grant Program (Round 2). Grant funds were awarded to Self-Help Enterprises and Rural Community Assistance Corporation and they will act as program administrators. These administrators will work directly with eligible school districts to develop and fund projects for DAC schools. Program administrators will reach out to those schools meeting priority criteria in the next several months.

Eligibility Requirements

Eligible applicants include local educational agencies (LEAs) serving kindergarten or any of grades 1-12, inclusive, and preschools and child day care facilities, located on public school property. Additionally, all projects must be located at schools within, or serving, a DAC.

Eligible Uses

Eligible projects include:

- Installation or replacement of water bottle refilling stations or drinking water fountains with or without treatment devices capable of removing contaminants present in the school's water supply.
- Installation of point-of-entry, or point-of-use treatment devices for water bottle filling stations, drinking fountains, and other fixtures that provide water for human consumption, including up to three years of associated operations and maintenance (O&M) costs.
- Installation, replacement, or repairs of drinking water fixtures and associated plumbing appurtenances that are necessary to address lead contamination identified by a school's public water system pursuant to the Lead Sampling of Drinking Water in California Schools Program and that requires a corrective action.

- Provision of interim alternative water supplies for applicants in process of implementing a permanent solution, including purchases of temporary transfer water, hauled water, and bottled water.

Funding can also be used for interim solutions. Program administrators can utilize funds to provide the following types of assistance:

- Grants to LEAs for project implementation.
- Direct project implementation on behalf of LEAs, which may include reimbursement for work implemented by contractors, including Public Water Systems.
- Technical assistance with completing funding applications, overseeing and inspecting project installations, monitoring, as well as planning and conducting operations and maintenance.

Ineligible Uses

Ineligible projects include:

- Major repairs or replacement of internal building plumbing systems.
- Replacement, repairs, or rehabilitation of wells.
- Establishing connections(s) to an adjacent public water system.
- Projects that are solely demonstration or pilot studies.
- Projects that are solely education and outreach.

Funding Limits

The maximum grant amount will be \$100,000 per individual school.

Terms/Dates

The DWFS Program will soon post deadlines for Round 2 projects.

Emergency Drinking Water/Cleanup and Abatement Account (CAA)

Type

Grant

Purpose

The CAA may be utilized to fund projects that clean up or abate the effects of a waste on waters of the State, or projects that address urgent drinking water needs.

Eligibility Requirements

The following entities are eligible to apply for funding to clean up a waste or abate the effect of waste on waters of the State, provided the entity has the authority to undertake the cleanup or abatement activity for which it seeks funding:

- A public agency serving a DAC.
- A Tribal government that is on the California Tribal Consultation List maintained by the Native American Heritage Commission and is a DAC, that agrees to waive tribal sovereign immunity for the explicit purpose of regulation by the State Water Board pursuant to Division 7 of the Water Code.
- A not-for-profit organization serving a DAC.
- A community water system serving a DAC.

Eligible Uses

The CAA may be used to fund projects for the cleanup or abatement where there are no viable responsible parties available to undertake the work. Eligible projects also include:

- Bottled water.
- Well repair, rehabilitation, and replacement.
- Vending machines.
- Point-of-Use devices.
- Hauled water.
- Emergency interties.
- Treatment systems.

The CAA may be also used to fund projects for the cleanup or abatement where there are no viable responsible parties available to undertake the work. Eligible projects also include:

- Cleanup of oil, diesel, or petroleum spill, mining waste leachate drainage, or other discharges.
- Removal or contaminated sediment, illegally dumped material, or other debris.
- Remediation of contaminated groundwater.
- Watershed restoration, including habitat restoration, erosion control, algae abatement.

Ineligible Uses

Ineligible projects include projects with a responsible party that has legal obligation and financial capacity to address the waste.

Funding Limits

\$500,000 per project, for routine noncontroversial projects.

Terms/Dates

No deadlines; continuous application process.

Program Contact

Matt Pavelchik

Orphan Site Cleanup Fund (OSCF)

Type

Grant

Purpose

OSCF provides financial assistance for the cleanup of a site contaminated by leaking petroleum underground storage tanks (USTs) where there is no financially responsible party and the applicant is not an eligible claimant to the UST cleanup fund.

Eligibility Requirements

Eligible applicants include any entity type, except State and federal that also:

- Own or have access to the property.
- Are not eligible for UST Cleanup Fund.
- Are not responsible for the UST petroleum release.
- Are not affiliated with any person who caused or contributed to UST petroleum release.

Eligible Uses

Eligible projects include those that involve the cleanup of sites where the principal source of contamination is from an on-site petroleum UST and where there is no financially viable responsible party for the contamination.

Funding Limits

The maximum amount of grant available for an eligible occurrence is \$1 million for a grant application filed on or after January 1, 2015.

Terms/Dates

No deadlines; continuous application process.

Program Contacts

For questions regarding the OSCF electronic application submission:

- Bridget Freeborn: Bridget.Freeborn@waterboards.ca.gov
- General info: ustcleanupfund@waterboards.ca.gov (Subject line: OSCF)

Website

https://www.waterboards.ca.gov/water_issues/programs/ustcf/oscf.html

Nonpoint Source (NPS) Grant Program

Type

Grant

Purpose

The purpose of the NPS Grant Program is to reduce or prevent nonpoint source pollutants, such as sediment, nutrients, pesticides, and pathogens, that come from activities related to agriculture, forestry, hydromodification, and marinas and harbors.

Eligibility Requirements

Eligible applicants include a public agency, nonprofit Section 501(c)(3) organization, federally recognized Tribe, State agency, public college, or a federal agency. Federally recognized Tribes must provide a limited waiver of sovereign immunity for the purpose of grant enforceability.

Projects must address NPS Grant Program preferences and meet funding match requirements. Implementation projects must be completed within three years or years, and planning projects must be completed in one year or less. Project must demonstrate climate change resilience.

Eligible Uses

The majority of NPS Grant Program funding is awarded to implementation proposals for impaired waters, or projects that implement practices to improve impaired waters. Some funding will be awarded to planning proposals if sufficient funding is available. In addition, some funding may be awarded to proposals for post-fire recovery and for protection of high-quality waters.

Ineligible Uses

- Private entities other than 501(c)(3) organizations.
- Projects necessary to satisfy an enforcement or civil settlement or judicial order.
- Projects that directly support the production of cannabis.
- Projects or activities that are required by or that implement a NPDES permit or an order applicable to regulated stormwater discharges under CWA section 402(p).

- Projects that convert or upgrade individual septic systems are ineligible. However, large-scale upgrades or conversion of an entire community, or portion of a community, that address a common impairment to the same waterbody and are part of one grant project, may be supported as long as the project meets all other eligibility requirements.
- Projects that are entirely or primarily education and outreach.
- Research studies and pilot projects.

Funding Limits

Project Type	Minimum Award	Maximum Award
Implementation of practices to improve impaired waters	\$250,000	\$800,000
Implementation of practices to protect or improve high-quality waters	\$250,000	\$800,000
Implementation of practices for post-fire recovery	\$250,000	\$800,000
Planning	\$80,000	\$200,000

Terms/Dates

The 2022 solicitation period opened at the end of September 2021. Project proposals will be reviewed and scored by a review committee and applicants will be notified of their status in spring of 2022 (April–May). The 2022 NPS fundable list will be made available online once the recommended project list has been approved by the State Water Board.

Technical Assistance (TA)

Type

Grant through technical assistance providers (nonprofit organizations and/or public universities).

Purpose

TA is intended to provide technical assistance to small DACs such that they can pursue funding for drinking water, wastewater, groundwater remediation, and stormwater capital improvement projects.

Eligibility Requirements

Eligible applicants include small (is less than 3,300 service connections or less than 10,000 population) DACs (median household income is less than 80 percent statewide median household income), and on a case-by-case basis, expanded small (less than 6,600 service connections or less than 20,000 population) DACs.

Eligible Uses

TA efforts are primarily focused on development of projects for the following funding programs:

- Drinking Water – Infrastructure improvements to correct system deficiencies and improve drinking water quality.
- Wastewater – Infrastructure improvements to correct system deficiencies and prevent pollution.
- Groundwater – Projects that prevent or cleanup the contamination of groundwater that serves or has served as a source of drinking water.
- Stormwater – Multiple benefit projects designed to infiltrate, filter, store, evaporate, treat, or retain stormwater or dry weather runoff.

Assistance types:

- Coordination and development of capital improvement projects.
- Facilitation of operation and maintenance.
- Engineering and environmental analysis.
- Legal assistance.
- Leak detection/water audits.
- Compliance audits.
- Financial analysis.
- Technical managerial and financial assessments.
- Board or operator training.

California State Water Resources Control Board

- Emergency drinking water and wastewater operations services.
- Energy audits, circuit riders.
- Revolving bridge loans for interim construction financing (San Joaquin Valley only).
- Emergency fund (San Joaquin Valley only).

Funding Limits

There are no maximum or minimum funding request amounts. Each TA project is allocated funds on a case-by-case, needs-based, basis.

Demand for drinking water/wastewater TA is extremely high. Not all eligible request can be accommodated through the TA Funding Program. Requests relating to one or more of the following will generally be given priority: systems that are out of compliance or experiencing insufficient water delivery capabilities, extension of service for drought/contamination impacted communities, consolidation projects, systems serving less than 200 connections, and applicants with small or relatively low cost needs that will enable an otherwise complete funding application to move forward.

Stormwater TA resources are limited. We are not currently accepting new communities for stormwater TA.

Terms/Dates

No deadlines; continuous application process.

Technical Assistance Request Form

To apply for technical assistance, please complete the Technical Assistance Request Form:

Programs

Water & Waste Disposal Loan & Grant Program

Type

Loan and Grant

Purpose

This program provides funding for clean and reliable drinking water systems, sanitary sewage disposal, sanitary solid waste disposal, and stormwater drainage to households and businesses in eligible rural areas.

Eligibility Requirements

This program assists qualified applicants who are not otherwise able to obtain commercial credit on reasonable terms. Eligible applicants include most State and local governmental entities, private nonprofits, and federally recognized Tribes.

CEQA/NEPA

A NEPA environment impact statement must be completed for each project.

Eligible Uses

Funds can be used to finance the acquisition, construction, or improvement of drinking water sourcing, treatment, storage and distribution; sewer collection, transmission, treatment and disposal; solid waste collection, disposal and closure; stormwater collection, transmission, and disposal.

In some case, funding also may be available for related activities such as legal and engineering fees; land acquisition, water and land rights, permits and equipment; start-up operations and maintenance; interest incurred during construction; purchase facilities to improve service or prevent loss of service; other costs determined to be necessary for completion of the project.

Ineligible Uses

Projects not modest in size, design, and cost; loan or grant finder fees; rental for use of equipment or machinery owned by applicant; projects serving non-rural areas.

Funding Limits

There is no minimum or maximum loan amount. Grants limited to 45 percent and 75 percent of project cost based on alleviating health and sanitary violations and keeping rates affordable.

Terms/Dates

The loan term is up to a 40-year payback period, based on the useful life of the facilities, and financed with a fixed interest rate. The interest rate is based on the need for the project and the median household income of the area to be served.

Emergency Community Water Assistance Grants

Type

Grant

Purpose

This program helps eligible communities prepare, or recover from, an emergency that threatens the availability of safe, reliable drinking water. Emergency events include a variety of disasters such as drought or flood; earthquake; tornado or hurricane; disease outbreak; chemical spill, leak, or seepage; and other disasters. A federal disaster declaration is not required under this program.

Eligibility Requirements

Eligible applicants include most State and local governmental entities, nonprofit organizations, and federally recognized Tribes.

Projects must be in rural areas and towns with populations of 10,000 or less. The area to be served must also have a median household income of less than the State's median household income for non-metropolitan areas based on latest U.S. Census data.

CEQA/NEPA

A streamlined NEPA environment impact statement is required for each project.

Eligible Uses

Water transmission line grants are available to construct waterline extensions, repair breaks or leaks in existing water distributions lines, and addresses related maintenance necessary to replenish the water supply.

Water source grants available to construct a water source, intake, or treatment facility.

Ineligible Uses

Privately owned wells are not eligible.

Funding Limits

The maximum award is \$1 million for water source grants. For water transmission grants, the maximum award is \$150,000.

Terms/Dates

Applications are accepted year-round.

Water & Waste Disposal Grants to Alleviate Health Risks on Tribal Lands and Colonias

Type

Grant

Purpose

This program provides low-income communities, that face significant health risks, access to safe, reliable drinking water and water disposal facilities and service.

Eligibility Requirements

Eligible applicants include State and local governmental entities serving eligible areas, nonprofit organizations, utility districts serving Colonias, federally recognized tribes.

Eligible areas are federally recognized Tribal lands; areas recognized as Colonias before October 1, 1989; rural areas and towns with a population on 10,000 or less. Residents of the area to be served must face significant health risks resulting from a lack of access to, or use of adequate, affordable water or waste disposal. Areas not located in a Colonia must meet per capita income and unemployment rate requirements.

CEQA/NEPA

A NEPA environment impact statement must be completed as part of the grant application.

Eligible Uses

Construction of basic drinking water and waste disposal systems including storm drainage. Utility districts may also be able to provide grants to individual households to install indoor plumbing and connect to the system.

Ineligible Uses

Projects that are not modest in size, design, and cost; loan or grant finder fees; rental for use of equipment or machinery owned by applicant; and projects serving non-rural areas.

Funding Limits

No maximum or minimum grant amount but limited to funding availability.

Terms/Dates

Applications accepted year-round.

Special Evaluation Assistance for Rural Communities and Households (SEARCH)

Type

Grant

Purpose

This program helps very small, financially distressed rural communities with predevelopment feasibility studies, design, and technical assistance on proposed water and water disposal projects.

Eligibility Requirements

Eligible applicants include most State and local governmental entities, nonprofits, federally recognized Tribes.

Eligible areas are those with a population of 2,500 or less and a median household income below the poverty line or less than 80 percent of the statewide non-metropolitan median household income based on latest U.S. Census data.

CEQA/NEPA

A NEPA environment impact statement must be completed as part of grant application.

Eligible Uses

To pay predevelopment planning cost, including:

- Feasibility studies to support applications for funding water or waste disposal projects.
- Preliminary design and engineering analysis.
- Technical assistance for the development of an application for financial assistance.

The predevelopment planning cost must be related to a proposed project that meets the following requirements:

- Construct, enlarge, extend, or improve rural water sanitary sewage, solid waste disposal, and storm wastewater disposal facilities.

USDA Rural Development

- Construct or relocate public buildings, roads, bridges, fences, or utilities and to make other public improvements necessary for the successful operation or protection of facilities.
- Relocate private buildings, roads bridges, or utilities, and other private improvements necessary for the successful operation or protection of facilities.

Ineligible Uses

Construction activities.

Funding Limits

There is a maximum of \$30,000 per application.

Terms/Dates

Applications are accepted year-round.

Community Facilities Direct Loan & Grant

Type

Loan and Grant

Purpose

This program provides affordable funding to develop essential community facilities in rural areas. An essential community facility is defined as a facility that provides an essential service to the local community for the orderly development of the community in a primarily rural area, and does not include private, commercial, or business undertakings.

Eligibility Requirements

Eligible applicants include most State and local governmental entities, nonprofits, federally recognized Tribes.

Rural areas including cities, villages, townships, and towns including federally recognized tribal lands with no more than 20,000 residents according to the latest U.S. Census Data are eligible for this program.

CEQA/NEPA

A NEPA environment impact statement must be completed as part of the loan/grant application.

Eligible Uses

Funds can be used to purchase, construct, and/or improve essential community facilities, purchase equipment and pay related project expenses.

Examples of essential community facilities include:

- Health care facilities such as hospitals, medical clinics, dental clinics, nursing homes or assisted living facilities.
- Public facilities such as town halls, courthouses, airport hangars, or street improvements.
- Community support services such as child care centers, community centers, fairgrounds or transitional housing.

USDA Rural Development

- Public safety services such as fire departments, police stations, prisons, police vehicles, fire trucks, public works vehicles or equipment.
- Educational services such as museums, libraries or private schools.
- Utility services such as telemedicine or distance learning equipment.
- Local food systems such as community gardens, food pantries, community kitchens, food banks, food hubs or greenhouses.

Ineligible Uses

Operating and working capital.

Funding Limits

There is a maximum of \$50,000 Grant per application. There is not a maximum for loan.

Terms/Dates

Applications are accepted year-round.

U.S. Department of the Interior, Bureau of Reclamation (Reclamation)

Interior Region 10 California Great-Basin
CGB-410
2800 Cottage Way
Sacramento, California 95825

— BUREAU OF —
RECLAMATION

Website

<https://www.usbr.gov/mp/watershare/index.html>

Contact information

The U.S. Bureau of Reclamation (Reclamation) is divided into five regions. Two regions cover California: the California Great-Basin Region (CGB) (based in Sacramento, California) and the Lower Colorado Basin Region (based in Boulder City, Nevada).

Contact information for CGB Water Conservation Team is listed below. Any of the team members can answer questions about a potential project within the CGB region.

CGB Water Conservation Team Members

Angela Anderson

916-978-5215

AAnderson@usbr.gov

Anna Sutton

916-978-5214

ASutton@usbr.gov

Gene Lee

916-978-5219

GLee@usbr.gov

Thomas Hawes

916-978-5271

Southern California Area Office Program Contact

Deb Whittney

951-201-6282 (cell)

DWhitney@usbr.gov

If you have questions about a project outside of the CGB region, contact one of the CGB team members, who will then find a Reclamation team member in the applicable region to assist you.

Reclamation Notices of Funding Opportunity

Throughout the year, Reclamation posts to www.grants.gov notices of funding opportunity (NOFOs) for various activities and projects that promote water savings. Usually, the financial assistance document is a Grant, but it instead may be a cooperative agreement.

Each NOFO describes or lists eligibility requirements, eligible uses, ineligible uses, funding limits, and terms and dates.

A NEPA compliance determination is required prior to a successful applicant using federal funds to conduct any ground-disturbing activity. If an application is successful, Reclamation will work with the applicant during the NEPA analysis process.

Below are the names, descriptions, contact information, and website for many of the NOFOs Reclamation has posted online recently.

CALFED Water Use Efficiency Grants

Purpose

These projects conserve and use water more efficiently in an agricultural or urban setting.

The U. S. Economic Development Administration (EDA) is a small, nimble agency within the U.S. Department of Commerce that provides a big impact by helping to make it easier for businesses to start and grow in the United States. We do this by working hand-in-hand with local economic development partners to advance their locally developed projects: projects that are tied to their region's long-term sustainable economic development strategy.

[US_EDA](https://twitter.com/US_EDA)

[EDACommerce](https://www.youtube.com/EDACommerce)

U.S Department of
Commerce, Economic
Development Administration

+EDA Eligibility Requirements

Eligible Applicants:

- Local and State governments.
- Native American Tribal governments.
- Nonprofit organizations.
- Institutions of higher education.

Economic Distress Criteria

A proposed project must be located in a region that meets EDA's economic distress criteria. The region must be subject to one (or more) of the following economic distress criteria:

- A 24-month unemployment rate that is one percentage point greater than the national average unemployment rate.
- Per capita income that is 80 percent or less of the national average per capita income.
- Special Need: Natural disasters, plant closures, persistent poverty (see current notice of funding opportunity for complete list).

How to Apply for Funding at EDA

Visit www.grants.gov (search for keyword "EDA") to find open solicitations, notices of funding opportunity (NOFO), and get application packages.

Funding Programs

Public Works

Purpose

EDA's Public Works Program helps distressed communities revitalize expand and upgrade their physical infrastructure. This program enables communities to attract new industry, encourage business expansion, diversify local economies, and generate or retain long-term private sector jobs and investment through the acquisition or development of land and infrastructure improvements needed for the successful establishment or expansion of industrial or commercial enterprises.

Types of Projects

EDA Public Works Program investments help facilitate the transition of communities from being distressed to becoming competitive by developing key public infrastructure, including water and sewer systems improvements, industrial parks, business incubator facilities, expansion of port and harbor facilities, skill-training facilities, and brownfields redevelopment.

Funding Availability

EDA receives annual appropriations from Congress for the Public Works Program.

Terms/Dates

Applications are accepted on a rolling basis.

Economic Adjustment Assistance

Purpose

The Economic Adjustment Assistance (EAA) Program provides a wide range of technical, planning, and public works and infrastructure assistance in regions experiencing adverse economic changes that may occur suddenly or over time. These adverse economic impacts may result from a steep decline in manufacturing employment following a plant closure, changing trade patterns, catastrophic natural disaster, a military base closure, or environmental changes and regulations.

Types of Projects

The EAA Program can assist state and local entities in responding to a wide range of economic challenges. As EDA's most flexible program, EAA can fund market and environmental studies, planning and construction grants, and capitalize or recapitalize revolving loan funds to help provide small businesses with the capital they need to grow.

Funding Availability

EDA receives annual appropriations from Congress for the Economic Adjustment Program and from time-to-time receives disaster supplemental appropriations for the Economic Adjustment Program. The most recent of those is a \$3 billion appropriation, which is available until September 30, 2022, in six NOFOs authorized by the American Rescue Plan Act of 2021.

Terms/Dates

Applications are accepted on a rolling basis.

California State Library – Grants Portal

California Conservation Corps (CCC)

California Conservation Corps Headquarters
1719 24th Street
Sacramento, California 95816
916-341-4430

The California Conservation Corps (CCC) is a department within the California Natural Resources Agency and is the oldest and largest conservation corps in the nation.

Founded in 1976, the CCC was modeled after the original Civilian Conservation Corps of the 1930s. The CCC's mission is to protect and enhance California's natural resources and communities while empowering and developing young adults through hard work and education.

All crews are supervised and trained in safety and tool use. CCC Corpsmembers can work on a variety of projects, including site preparation, levee work, erosion control, trail building and rehabilitation, planting native trees and plants, removal of non-native or invasive plant species, and management of fire fuels.

Proposition 1

The CCC is available to partner with organizations applying to Proposition 1 grant programs to provide affordable labor for projects focused on rivers, lakes, streams, coastal waters and watersheds.

Learn more about CCC Proposition 1 work at <https://ccc.ca.gov/proposition-1>.

Proposition 68

The CCC also received direct Proposition 68 funding to complete climate adaptation and resiliency projects. Organizations may collaborate with a CCC Center to develop a project and apply for CCC Proposition 68 funds.

Learn more about CCC Proposition 68 work at <https://ccc.ca.gov/proposition-68>.

Toll Free: 800-833-0322
Phone: 916-553-4900
Fax: 916-553-4904
Email: info@calruralwater.org

About CRWA

Incorporated in 1990, California Rural Water Association (CRWA) has emerged as the State's leading association dedicated to providing on-site technical assistance and specialized training for rural water and wastewater systems. Tapping into the expertise of experienced water and wastewater professionals, CRWA's governing Board of Directors, administrative staff, and technical field specialists work in concert to offer CRWA members an expansive range of essential programs and member services.

Whether a system needs help developing a new rate schedule, setting up proper testing methods, understanding those ever-changing and complex government regulations, preparing a Consumer Confidence Report, or updating operator certification requirements, CRWA is ready with assistance.

State Revolving Fund (SRF) Program

CRWA SRF Specialist Program provides State Water Board-approved utilities statewide including technical assistance; technical, managerial, and financial assessment assistance; capacity development building assistance; as well as planning and construction application assistance to the State revolving fund loan and grant funding program.

USDA Circuit Rider Program (Rural Development)

CRWA Circuit Rider programs provide a variety of hands-on and management technical assistance. They will specifically assist eligible utilities with the RD Apply application process for the USDA Rural Development Infrastructure Loan and Grant Program.

National Rural Water Association (NRWA)

CRWA staff also assist rural communities in accessing the Revolving Loan Program featured by NRWA. This is a simple program with a \$100,000 maximum loan amount is typically used for preliminary engineering and funding application costs.

Rural Community Assistance Corporation (RCAC)

Rural Community Assistance Corporation
3120 Freeboard Drive
West Sacramento, California 95691
916-447-2854

The Rural Community Assistance Corporation (RCAC) envisions vibrant, healthy, and enduring rural communities throughout the West.

Founded in 1978, RCAC provides training, technical, and financial resources and advocacy to help rural communities achieve their goals and visions. RCAC provides a wide range of community development services for rural and Native communities, and community-based organizations in 13 western states and Pacific Islands.

Loans

RCAC was certified as a Community Development Financial Institution (CDFI) in 1996 and finances affordable housing, community facilities, utility infrastructure, and small businesses in rural communities. As a certified CDFI, RCAC fills financing gaps and serves unconventional markets.

For more information, contact your local loan officer at:
<https://www.rcac.org/lending/loan-fund-contacts/>

Environmental

RCAC works with rural water, wastewater, and solid waste systems to make them sustainable. Our environmental services are directed to small, low-income communities in rural areas and Indian country to ensure that they comply with State and federal regulations. RCAC is a Rural Community Assistance Partnership member.

Request technical assistance at:

Workshop Notes

[illegible]

California State Library Grants Portal

As part of the [Grant Information Act of 2018 \(Assembly Bill 2252, Stats. 2018, Chapter 318\)](#), the California State Library has created a website (grants.ca.gov/) that provides a centralized location to find State grant opportunities. Grant seekers are now able to see all current grant and loan opportunities that are offered on a competitive or first-come basis and can search and filter their results.

State grantmaking agencies input and update their information into prescribed data fields to make all state grant opportunities searchable on grants.ca.gov. The Grant Information Act requires state agencies to provide summaries of each of their grant or loan opportunities, including, among other items, information about how to apply and links that grant seekers can follow for more details.

The California State Library worked with State agencies and various grant seekers to develop the final site but is also currently looking for feedback and suggestions. To give feedback or suggestions for improving the site, please visit grants.ca.gov/contact-us/.
